

**AdLINK Internet Media AG,
Montabaur**

Parent Company's Financial Statements
according to HGB
(German Commercial Code)

as of
December 31, 2006

Auditor's Report

We have issued the following certificate for the annual financial statements and management report of the Company and the Group:

We have audited the annual financial statements of AdLINK Internet Media AG, Montabaur – comprising the balance sheet, income statement and notes to the financial statements – as well as the bookkeeping system and management report for the Company and the Group for the fiscal year from January 1, 2006 to December 31, 2006. The bookkeeping system and preparation of the annual financial statements, as well as the management report for the Company and the Group, according to German commercial law regulations are the responsibility of the Company's legal representatives. Our responsibility is to express an opinion on the annual financial statements, together with the bookkeeping system and the management report for the Company and the Group, based on our audit.

We conducted our audit of the annual financial statements in accordance with Sec. 317 HGB and the generally accepted standards for the audit of financial statements in Germany promulgated by the "Institut der Wirtschaftsprüfer" (IDW). Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the annual financial statements in accordance with principles of proper accounting and in the management report for the Company and the Group are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Company and evaluations of possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the bookkeeping, annual financial statements and management report for the Company and the Group are examined primarily on a test basis within the framework of the audit. The audit includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the annual financial statements and the management report for the Company and the Group. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion, the annual financial statements comply with legal regulations and give a true and fair view of the Company's net assets, financial position, results of operations and cash flows for the fiscal year in accordance with principles of proper accounting. On the whole, the management report for the Company and the Group provides a suitable understanding of the Company's position and suitably presents the opportunities and risks to future development.

AdLINK Internet Media AG, Montabaur

Notes to the Financial Statements for Fiscal Year 2006

General comments

The annual financial statements were prepared in accordance with Sections 242 ff. and Sections 264 ff. German Commercial Code (HGB). The provisions for large corporations of the German Stock Corporation Law (AktG) apply.

The income statement is prepared according to the cost summary method.

In order to enhance the clarity of presentation, certain items of the balance sheet and income statement have been combined and are therefore displayed and explained separately in these notes to the annual financial statements.

Accounting and valuation methods

The following unchanged accounting and valuation methods were used in the preparation of the annual financial statements.

Intangible assets acquired for consideration are capitalized at acquisition cost and, insofar as their value diminishes, amortized according to their expected useful life (3 or 6 years; straight-line method).

Property, plant and equipment are valued at acquisition or production cost and depreciated in scheduled amounts, insofar as their value diminishes, over their normal useful lives.

Property, plant and equipment are depreciated over their expected useful lives at the highest rates permitted under tax laws. The straight-line method is mainly used and, wherever permitted by tax law, the declining balance method is applied for some movable assets. The straight-line method is then applied as soon as it leads to higher annual depreciation rates. Other fixed assets are depreciated using the straight-line method. Low-value items (acquisition costs of no more than €410) are fully expensed in the year of acquisition; it is assumed that they are disposed of immediately. Depreciation of additions to property, plant and equipment are always made pro rata temporis.

In the case of **financial assets**, shares are recorded at the lower of the acquisition cost or realizable value on the balance sheet date and loans at their nominal values.

Receivables and other assets are recorded at nominal value. All risk-bearing items are covered by reasonable lump-sum bad debt allowances. Non-interest bearing receivables with due dates of over one year are discounted.

Tax accruals and **other accruals** consider all contingent liabilities and possible losses from pending transactions. They are carried at an amount deemed necessary according to sound commercial judgment.

Liabilities are stated at the amount repayable.

Foreign currencies were converted in accordance with the imparity principle or strict lower value regulation.

Notes to the balance sheet items

Fixed assets

The development of individual fixed asset items and annual depreciation amounts are shown in the fixed asset movement schedule.

Financial assets of the Company consist mainly of shares in affiliated companies and loans to affiliated companies. The increase in financial assets results primarily from the financing of further shares in Sedo GmbH by AdLINK GmbH as well as the remaining shares in CibleClick by affilinet GmbH.

Shareholdings

Information on the equity situation and results of operations of the affiliated companies and associated companies, stating the share held, is included in the list of shareholdings. The list of shareholdings of AdLINK Internet Media AG as of December 31, 2006, is to be filed with the electronic Commercial Register.

Loans

In order to finance the purchase of shares in CibleClick Performances SA, a long-term credit line amounting to €17 million was granted to affilinet GmbH, of which €15.5 million had been drawn as of the balance sheet date. For the purchase of shares in Sedo GmbH, AdLINK AG provided AdLINK GmbH with a long-term loan of €34.5 million. Moreover, AdLINK GmbH redeemed €900k and AdLINK Belgium €295k of the loans issued as of December 31, 2005. The loan to AdLINK Spain was raised by €320k to finance an increase in working capital. As of December 31, 2006, short-term loans to AdLINK Spain totaled €440k, to AdLINK GmbH €1,500k and to AdLINK Belgium €125k.

	within 1 year	Due 1 to 5 years	over 5 years	Total
Loans to affiliated companies in €k	2,065	50,000	0	52,065

AdLINK AG has also committed itself to providing Group companies with any further necessary financial support.

Payables and other assets

	Dec. 31, 2006	Dec. 31, 2005
	€k	€k
Trade receivables	722	421
of which due in more than one year	0	0
Receivables from affiliated companies	10.934	5.083
of which due in more than one year	0	0
Receivables from companies in which an investment is held	69	39
of which due in more than one year	0	0
Other assets	55	57
of which due in more than one year	0	0
	<u>11.780</u>	<u>5.600</u>

The increase in trade receivables results mainly from international advertising campaigns carried out by AdLINK AG for a customer.

Receivables from affiliated companies mainly comprise balances from trade with subsidiaries as well as cost allocations, a receivable from the profit transfer agreement with affilinet GmbH and cash pool receivables.

Cash and cash equivalents

As of December 31, 2006 the Company had cash and cash equivalents amounting to €616k (prior year: €21k). In fiscal 2006, a cash pooling system was set up with Dresdner Bank AG for the subsidiaries affilinet UK, AdLINK UK, AdLINK France, net:dialogs, AdLINK GmbH, affilinet GmbH, AdLINK Belgium, AdLINK Netherlands, AdLINK Spain, Sedo GmbH and AdLINK Italy. The British companies were included by means of a separate GBP cash pool. There is also the cash pooling contract concluded in the previous year between AdLINK AG and United Internet AG with West LB. In order to facilitate an optimum liquidity balance, the balance accrued with the Dresdner Bank cash pool is automatically transferred to the West LB cash pool of United Internet AG.

The total liability of AdLINK AG to United Internet AG from the cash pool amounts to €47,389k as of December 31, 2006.

As of the balance sheet date, the Company had access to the following unused credit lines:

Open credit lines as of December 31, 2006	in €million
WestLB AG (until May 9, 2007)	25.0
Dresdner Bank AG (until further notice)	15.0
Dresdner Bank AG (until November 22, 2009)	15.0
United Internet AG (until January 30, 2007)	17.7
Total:	<u>72.7</u>

Capital stock

During the period under review, the capital stock of AdLINK AG increased by €62,955 to €25,914,900 due to the exercise of convertible bonds by staff and a member of the Management Board. Capital stock is divided into 25,914,900 no-par value, registered shares with a theoretical share in the capital stock of €1.00 each.

With a resolution of the Annual Shareholders' Meeting of May 17, 2005, Authorized Capital 2005 of up to €12,900,000 was created by issuing up to €12,900,000 new no-par value shares with a theoretical share in the capital stock of €1.00 each.

A resolution was already made in fiscal year 2000 to increase the capital stock conditionally by a maximum of €1,992,000, divided into up to 1,992,000 no-par shares (Conditional Capital I/2000), and by a maximum of €8,000, divided into up to 8,000 no-par shares

(Conditional Capital II/2000) for the issue of convertible bonds as part of stock-based compensation. With a resolution of the Annual Shareholders' Meeting held on May 17, 2004, a further conditional increase of capital stock was agreed of up to €1,250,000 divided into up to 1,250,000 no-par value shares (Conditional Capital I/2004). Moreover, Conditional Capital I/2000 was reduced to €1,000,000.00 divided into up to 1,000,000 no-par value shares. At the Annual Shareholders' Meeting held on May 17, 2005 a conditional increase of capital stock was agreed of up to €10,000,000 divided into up to 10,000,000 no-par value shares.

A total of 62,955 no-par value shares with a theoretical share in the capital stock of €62,955 were issued in fiscal year 2006 due to the exercising of conversion rights. As a result of the issue of 62,955 no-par value shares and Conditional Capital 2005, there was a conditional increase in capital stock as of December 31, 2006 of up to €12,093,100.00 divided into up to 12,093,100 no-par value shares.

As of December 31, 2006 capital stock was held as follows:

	<u>€k</u>	<u>%</u>
United Internet AG	20,750	80.1
Free float	5,060	19.5
Management Board and Supervisory Board	105	0.4
	<u>25,915</u>	<u>100.0</u>

Additional paid-in capital increased over the period under review by €32,247.40, due to the exercise of convertible bonds, and amounted to €92,189,738.21 as of December 31, 2006.

Accumulated deficit

For the period under review, AdLINK AG posted a net income of €5,285k.

After consideration of the loss carried forward from fiscal year 2005 amounting to €97,016k the accumulated deficit totaled €91,731k.

Other provisions

	Dec. 31, 2006 <u>€k</u>	Dec. 31, 2005 <u>€k</u>
Tax provisions	587	24
Other provisions	1,276	783
	<u>1,863</u>	<u>807</u>

Other provisions consist of provisions for outstanding incoming invoices (€901k; prior year: €302k), provisions for auditing and legal costs (€98k; prior year: €143k) and personnel-related provisions, such as bonuses, commissions and outstanding holidays, amounting to €278k (prior year: €273k).

Liabilities

The classification and maturities of the liabilities are shown in the following table:

Liabilities in €k

Liability type	Dec. 31, 2006		Total	Dec. 31, 2005	
	Due up to 1 year	1 to 5 years		Due up to 1 year	Total
1. Bonds, thereof convertible	101	99	200	98	276
2. Bank liabilities	15,000	0	15,000	0	0
3. Trade payables	3,294	0	3,294	2,376	2,376
4. Liabilities due to affiliated companies	63,776	0	63,776	2,597	35,184
5. Other liabilities	187	0	187	244	244
- thereof for tax	168	0	168	194	194
- thereof for social security	2	0	2	18	18

The bonds concern convertible bonds granted to executives of the AdLINK Group as part of the employee stock ownership plan.

AdLINK AG issued convertible bonds to employees of the AdLINK Group. A total of €24k (prior year: €66k) are held by employees and €40k (prior year: €40k) by the Management Board from convertible bond programs in accordance with a resolution of the Annual Shareholders' Meeting of May 17, 2004. An amount of €136k (prior year: €170k) is still held by the Management Board from an employee stock ownership plan in accordance with a resolution of the Annual Shareholders' Meeting of April 4, 2000.

Convertible bonds issued as part of the employee stock ownership plan of AdLINK AG in accordance with a resolution of the Annual Shareholders' Meeting of April 4, 2000 entitle the bearer to convert each nominal amount of €1 into a no-par value registered share in AdLINK AG having a theoretical share in the capital stock of €1. If converted, a cash premium to the amount of the difference between €1 and the conversion prices must be paid. The conversion price corresponds to the arithmetic mean of the share price of AdLINK Internet Media AG in the last five trading days before the convertible bonds are issued. The issue date is the day on which the Management Board resolves to issue the convertible bond.

A 20% portion of the convertible bonds issued as part of the employee stock ownership plan of AdLINK AG in accordance with a resolution of the Annual Shareholders' Meeting of April 4, 2000 may be converted into shares in the Company no earlier than 12 months after the date of issue. Up to 40% may be converted no earlier than 24 months, up to 70% no earlier than 36 months and the whole amount no earlier than 48 months after they were issued.

Convertible bonds issued as part of the employee stock ownership plan of AdLINK AG in accordance with a resolution of the Annual Shareholders' Meeting of May 17, 2004 entitle the bearer to convert each nominal amount of €1 into a no-par value registered share in AdLINK AG having a theoretical share in the capital stock of €1. If the conversion option is exercised,

an additional cash payment has to be made in the amount by which the conversion price exceeds one tenth of the par value of the convertible bond. The conversion price corresponds to the arithmetic mean of the share price of AdLINK Internet Media AG in the last five trading days before the convertible bonds are issued, plus a premium of 20%. The issue date is the day on which the Management Board resolves to issue the convertible bond.

Up to 25% of the convertible bonds issued as part of the employee stock ownership plan of AdLINK AG in accordance with a resolution of the Annual Shareholders' Meeting of May 17, 2004 may be converted at the earliest 24 months after the date of issue; up to 50% at the earliest 36 months after the date of issue. A total of up to 75% may be exercised at the earliest 48 months after the date of issue; the full amount may be exercised at the earliest 60 months after the date of issue of the convertible bonds.

The following assumptions were made to calculate the fair value of the options associated with the conversion rights of the AdLINK shares which were issued on May 16, 2002, the result being €1.5 per share.

- Dividend yield: 0%
- Volatility of the AdLINK share: 102.8%
- Expected term: 4 years
- Risk-free interest: 3.64%

The following assumptions were made to calculate the fair value of the options associated with the conversion rights of the AdLINK shares which were issued on January 2, 2004, the result being €1.23 per share.

- Dividend yield: 0%
- Volatility of the AdLINK share: 88.0%
- Expected term: 4 years
- Risk-free interest: 3.85%

The following assumptions were made to calculate the fair value of the options associated with the conversion rights of the AdLINK shares which were approved on April 8, 2005 (“5th tranche”), the result being €0.91 per share.

- Dividend yield: 0%
- Volatility of the AdLINK share: 68.0%
- Expected term: 5 years
- Risk-free interest: 3.50%

The following assumptions were made to calculate the fair value of the options associated with the conversion rights of the AdLINK shares which were approved on May 23, 2005 (“6th tranche”), the result being €1.34 per share.

- Dividend yield: 0%
- Volatility of the AdLINK share: 68.0%

- Expected term: 5 years
- Risk-free interest: 3.50%

Liabilities of AdLINK AG to affiliated companies result mainly from the cash pool with United Internet AG in the amount of €47,389k as well as AdLINK's internal cash pool. We refer to the notes on cash and cash equivalents.

There is also a short-term bank loan of €15,000k.

Other financial obligations

In addition commitments, other financial obligations amount to €12,316k (of which to affiliated companies €344k). These obligations include the following items:

Type of other financial obligation in €k	Due			Total
	up to 1 year	1 to 5 years	over 5 years	
1. DART services	2,340	9,360	195	11,895
2. Payment obligations from lease agreements	117	171	0	288
3. Payment obligations from vehicle leasing agreements	5	7	0	12
4. Other	121	0	0	121
	<u>2,583</u>	<u>9,538</u>	<u>195</u>	<u>12,316</u>

On January 28, 2002 AdLINK AG concluded a general agreement over 10 years with DoubleClick International TechSolutions Ltd., Dublin/Republic of Ireland, for the provision of DART services. In December 2006, an amendment was made to the terms and conditions of the general agreement for the fiscal years 2007 and 2008. The resulting minimum contractual obligation amounts to €2,340k for the year 2007 and 2008. The contractual terms will be renegotiated following this two-year period. An estimated figure of €2,340k p.a. until January 28, 2012 was given as the potential future obligation. In fiscal year 2006 there were costs of €2,441k resulting from this agreement.

There is a rental agreement between AdLINK AG and United Internet AG concerning offices at the Company's headquarters in Montabaur. The lease runs until June 30, 2009. The future financial obligations arising from this lease amount to €260k.

Notes to the income statement

Sales revenue

Sales revenue of €14,293k was generated within the Group. This figure comprises services provided by AdLINK AG for its subsidiaries, as well as cost allocations for campaign invoices settled by AdLINK AG. Sales to third parties amounting to €2,718k resulted mainly from international advertising campaigns for a customer, which were processed by way of exception by AdLINK AG, as well as services and license income for the use of name rights with AdLINK Switzerland and the former licensee for the Austrian market (Jan-April 2006).

Other operating income

Other operating income of €3,783k results mainly from the restatement of investments in affiliated companies (€2,540k; prior year: €534k), income from an additional claim resulting from the subsequent recognition of a sales tax claim relating to costs in connection with the IPO in 2000 (€583k), as well as income from the reversal of an allowance for receivables against AdLINK Italy (€350k).

Income from investments

Income from investments of €3,955k relates in part to profit transfer agreements as well as to dividend payments of AdLINK Netherlands (€115k) and AdLINK Switzerland (€449k). The profit transfer agreement with affilinet GmbH resulted in income from investments of €3,391k. The profit transfer agreement with AdLINK GmbH had no commercial law consequences in fiscal year 2006, as AdLINK GmbH still has an accumulated loss according to commercial law. In accordance with regulations, the profit of AdLINK GmbH was netted with this accumulated loss.

Other operating expenses

Other operating expenses of €2,243k (prior year: €2,511k) result mainly from third-party IT services (€318k), accounts receivable losses (€305k) and legal, consulting and auditing costs (€252k). Other operating expenses also include travel costs (€244k), rental costs (€166k) and expenses in connection with the Company's stock exchange listing (€129k).

The accounts receivable losses result from allowances for receivables from AdLINK Denmark (€232k) and receivables from the former licensee in Austria (€73k). The allowances were made due to the closure process of AdLINK Denmark, which is expected to be completed in Q1 2007. Legal action was taken to recover receivables from the former licensee in Austria, which have thus been adjusted.

Income and expenses not relating to the period

In fiscal year 2006, significant income not relating to the period resulted from an additional claim from subsequent recognition of a sales tax claim relating to costs in connection with the IPO in 2000 of €583k, plus the resulting interest claim of €166k.

Other disclosures

Management Board

As of December 31, 2006, the Management Board continued to consist of three members: Guy Challen, Stéphane Cordier and Marc Stilke.

The Supervisory Board is responsible for determining the remuneration of Management Board members. The remuneration received by the members of the Management Board of AdLINK Internet Media AG is performance-oriented and consists of fixed and variable elements.

The fixed element is paid monthly as a salary. The size of the variable element is dependent upon the attainment of certain fixed financial objectives identified at the beginning of the year and related to the budget.

Total remuneration paid to the members of the Management Board for fiscal year 2006 amounted to €748k (prior year: €596k). Of this total, the fixed sums amounted to €443k (prior year: €398k) and the variable sums to €305k (prior year: €198k). The remuneration in fiscal year 2006 paid to Mr. Stéphane Cordier amounted to €314k (prior year: €257k), of which €149k (prior year: €160k) was fixed and €165k (prior year: €97k) variable. In the case of Mr. Guy Challen, the total remuneration of €165k (prior year: €147k) consisted of a fixed element of €114k (prior year: €114k) and a variable element of €51k (prior year: €33k). Mr. Stilke received total remuneration of €269k (prior year: €192k), of which €180k (prior year: €124k) was fixed and €89k (prior year: €68k) variable.

The Management Board member Guy Challen also exercised a total of 34,000 conversion options from the convertible bond program, in accordance with a resolution of the Annual Shareholders' Meeting of April 4, 2000. At the time of issue, there was a fair value of €1.23 per conversion option.

Supervisory Board

As of December 31, 2006 the Supervisory Board of AdLINK AG consisted of:

Norbert Lang, member of the Management Board of United Internet AG

Michael Scheeren, qualified banker,

Andreas Gauger, member of the Management Board of 1&1 Internet AG

The Chairman of the Supervisory Board, Mr Michael Scheeren, was also a member of the supervisory boards of United Internet AG, Montabaur, United Internet Media AG, Montabaur, 1&1 Internet AG, Montabaur (Chairman) and NT plus AG, Osnabrück (Chairman). Mr Norbert Lang is a member of the supervisory boards of twenty4help Knowledge Service AG, Montabaur, Deutsche Challenge 2007 AG, Munich and (from January 20, 2006) United Internet Media AG, Montabaur. Mr Andreas Gauger does not hold seats on other supervisory boards.

In the fiscal year 2006, members of the Supervisory Board received remuneration totaling €20k (prior year: €21k).

In accordance with a resolution adopted by the Annual Shareholders' Meeting of May 17, 2005, Supervisory Board remuneration comprises the following components. Each member of the Supervisory Board receives a fixed amount of €7,500.00 per year. The chairman of the Supervisory Board receives twice this amount. In addition to this fixed amount, each Supervisory Board member (including the chairman) receives a variable amount based on the Company's performance. The variable amount is €250.00 for every €0.01 of earnings per share, as disclosed in the Company's consolidated financial statements, which exceeds a minimum amount of €0.10 per share. The minimum amount increases annually by 10%, beginning in fiscal year 2006, i.e. the minimum amount of earnings per share amounts to €0.11 per share. The variable remuneration element is limited to €5k per Supervisory Board member.

In an agreement with the Supervisory Board members, it is company policy not to provide remuneration for supervisory board seats within the Group.

	31
Apprentices	2
	<hr/>
	<u>33</u>

Amendments to Company articles

As part of the change in the Company's legal form, from AdLINK Internet Media GmbH Europe to AdLINK Internet Media AG, articles were adopted which were last amended by the Annual Shareholders' Meeting of June 12, 2006.

The following paragraphs were amended in the articles of AdLINK Internet Media AG:

Amended paragraphs Heading

Sec. 15 (3)	Venue and convening, image and sound transmission (convening of Annual Shareholders' Meeting)
-------------	---

Sec. 16	Notification and participation at the Annual Shareholders' Meeting
Sec. 17	Voting rights
Sec. 18 (2)	Chair (of the Annual Shareholders' Meeting)

Sec. 15 (3) of the articles was deleted by the Annual Shareholders' Meeting and newly formulated as follows:

Annual Shareholders' Meetings are convened by publishing an announcement at least 30 days before the day on which shareholders must have notified their intention to attend pursuant to Sec. 16 at the latest; the day on which the Annual Shareholders' Meeting is convened and the last day on which shareholders must have given notification of their attendance are not included in this calculation.

Sec. 16 of the articles was deleted and newly formulated as follows:

(1) Those shareholders who are registered in the share register and who have notified the Company of their participation shall be entitled to participate in the Annual Shareholders' Meeting and to exercise their voting rights.

(2) Notification of attendance at the Annual Shareholders' Meeting must be made in writing, or in some other way specified by the Company, and handed in to the Company, or some other place specified in the announcement to convene the Annual Shareholders' Meeting, and must be received no later than on the last day of the legally specified notice period, insofar as the Management Board has not specified any later deadline for the receipt of notification. The deadline for the receipt of notification and all further details will be announced together with the convening of the Annual Shareholders' Meeting.

Sec. 17 of the articles was deleted by the Annual Shareholders' Meeting of June 12, 2006 and newly formulated as follows:

(1) Each share shall represent one vote.

(2) Voting rights may also be exercised by a proxy nominated by the shareholder.

(3) The Management Board shall arrange proxies authorized to exercise the voting rights of shareholders according to their instructions.

(4) Authorization to act as proxy can be made in writing or by another method to be specified in more detail by the Company. Details, especially with regard to forms and deadlines for the authorization and annulment of proxies, will be announced together with the convening of the Annual Shareholders' Meeting.

Sec. 18.2 of the articles was also deleted by the Annual Shareholders' Meeting and newly formulated as follows:

The chairman leads the meeting. He determines the type and form of the voting procedure. He is further authorized to set an appropriate time limit with respect to the right of shareholders to speak and ask questions. In particular, he is authorized to set an appropriate time limit for the duration of the entire Annual Shareholders' Meeting as well as for the discussion of individual agenda items and individual contributions of participants, and to set the sequence of speakers on individual items at the start of or during the Annual Shareholders' Meeting.

The amendments were entered in the commercial register on July 12, 2006.

Group relations

- In accordance with Sec. 315a HGB, AdLINK Internet Media AG prepared consolidated annual financial statements for the fiscal year 2006 according to the IFRS of the International Accounting Standards Board (“IASB”).
- These consolidated annual financial statements are in turn included in the consolidated annual financial statements of United Internet AG, Montabaur, as the highest group company, which are also available from the head office of AdLINK AG, Montabaur.

Appropriation of profit

In agreement with the Supervisory Board, the Management Board proposes to carry forward the accumulated loss amounting to €91,731k.

Auditing and consulting expenses

Auditing fees expensed in the period under review for the auditing of the annual financial statements amounted to €113k. A total of €49k was carried in fiscal year 2006 for tax advice services and €29k for other services. Fees of €94k were paid to associated companies of the

auditing firm, of which the majority of €72k was incurred for consulting services in France in connection with the purchase of Cibleclick Performances SA by affilinet GmbH.

Corporate Governance Code declaration acc. to Sec. 161 AktG

AdLINK AG submitted the statutory declaration for 2006 pursuant to Sec. 161 AktG, which conformed with the recommendations of the “Government Commission German Corporate Governance Code”, as will it in future. The declaration was made available to shareholders.

Subsequent events

There were no events subsequent to the balance sheet date which might have a significantly adverse impact on the business activities of AdLINK AG.

Consolidated Annual Financial Statements
according to IFRS

as of
December 31, 2006

Auditor's Report

We have issued the following certificate for the consolidated annual financial statements and the management report for the Company and the Group:

We have audited the consolidated financial statements prepared by AdLINK Internet Media AG, Montabaur – comprising the balance sheet, income statement, statement of changes in equity, cash flow statement and notes to the financial statements – as well as the for the fiscal year from January 1, 2006 to December 31, 2006. The preparation and content of the consolidated financial statements and management report for the Company and the Group according to IFRS, as applied in the EU, and the supplementary commercial law regulations of Section 315a (1) German Commercial Code (HGB) are the responsibility of the Company's legal representatives. Our responsibility is to express an opinion on the consolidated financial statements and the management report for the Company and the Group based on our audit.

We conducted our audit of the consolidated financial statements in accordance with Sec. 317 HGB and the generally accepted standards for the audit of financial statements in Germany promulgated by the "Institut der Wirtschaftsprüfer" (IDW). Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the consolidated financial statements in accordance with principles of proper accounting and in the management report for the Company and the Group are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Group and evaluations of possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the consolidated financial statements and the management report for the Company and the Group are examined primarily on a test basis within the framework of the audit. The audit includes assessing the annual financial statements of the companies included in consolidation, the determination of the companies to be included in consolidation, the accounting and consolidation principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements and the management report for the Company and the Group. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion, the consolidated financial statements comply with IFRS, as applied in the EU, and the supplementary commercial law regulations of Section 315a (1) HGB and give a true and fair view of the Group's net assets, financial position, results of operations and cash flows for the fiscal year. On the whole, the management report for the Company and the Group provides a suitable understanding of the Group's position and suitably presents the opportunities and risks to future development.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1) COMPANY DATA

Management Board:

Stéphane Cordier (Chief Executive Officer)

Marc Stilke (Speaker of the Management Board)

Guy Challen (Chief Financial Officer)

Supervisory Board:

Michael Scheeren (Chairman)

Norbert Lang (Deputy Chairman)

Andreas Gauger

Employees

On December 31, 2006 the AdLINK Group had 400 employees (previous year: 267). The average number of employees was 336 (previous year: 216).

2) NATURE OF THE BUSINESS

The purpose of the business of AdLINK Internet Media AG, Elgendorfer Strasse 57, 56410 Montabaur, registered under HRB 5432 in Montabaur, Germany (subsequently referred to as “the Company” or “AdLINK AG”) is to acquire, hold and manage investments in other German and foreign companies, to provide marketing, sales and other services connected with information and telecommunication technology, to advise companies on marketing, sales and advertising issues as well as to market information and telecommunication technologies and products associated with these areas of activity.

In accordance with its articles, the Company is authorized to conduct all business activities and to take all action that may be conducive to attaining its purpose. It may acquire or invest in all manner of companies, both German and foreign and establish branch operations in Germany or other countries.

The Company is also authorized to conduct its business through subsidiaries, associated companies and joint ventures. It may transfer or outsource all or part of its operations to affiliated companies.

The Company's shares are currently traded in the Prime Standard segment of the Frankfurt Stock Exchange. Pursuant to Section 161 of the German Stock Corporation Act, AdLINK Internet Media AG's legal representatives have issued a declaration of compliance with the German Corporate Governance Code and made it permanently available to shareholders on the relevant internet page.

All companies in which AdLINK Internet Media AG holds all shares, directly or indirectly, are included in the consolidated financial statements. The following companies are included by name (percentage figures refer to direct/indirect shareholdings):

Media segment

- AdLINK Internet Media GmbH Germany, Montabaur, Germany ("AdLINK Germany"), 100%
- AdLINK Internet Media AB, Stockholm/Sweden ("AdLINK Sweden"), 100%
- AdLINK Internet Media S.A., Levallois-Perret/France ("AdLINK France"), 100%
- AdLINK Internet Media Ltd., London/Great Britain ("AdLINK UK"), 100%
- AdLINK Internet Media S.L., Madrid/Spain ("AdLINK Spain"), 100%
- AdLINK Internet Media N.V., Zellik/Belgium ("AdLINK Belgium"), 100%
- AdLINK Internet Media APS, Copenhagen/Denmark ("AdLINK Denmark"), 100% in liquidation
- AdLINK Internet Media B.V., Haarlem/Netherlands ("AdLINK Netherlands"), 100%
- AdLINK Italy Internet Media Srl, Milan/Italy ("AdLINK Italy"), 100%

Affiliate Marketing segment

- affilinet GmbH, Ebersberg/Germany ("affilinet Germany"), 100%
- affilinet Ltd., London/Great Britain ("affilinet UK"), 100%
- CibleClick Performances S.A., Paris/France ("CibleClick France"), 100%
- CibleClick SAS, Paris/France ("CibleClick Holding"), 100%

Domain Marketing segment

- Sedo GmbH, Cologne/Germany ("Sedo Germany"), 75.94%
- Sedo LLC, Cambridge (Boston)/USA ("Sedo USA"), 75.94%
- DomCollect Worldwide Intellectual Property AG, Zug/Switzerland ("DomCollect"), 75.94%

Corporate segment

- net:dialogs GmbH, Montabaur/Germany ("net:dialogs"), 100%

In addition to the joint venture AdLINK Internet Media AG Küstnach/Switzerland ("AdLINK Switzerland") formed on January 1, 2004, in which AdLINK Internet Media AG and Goldbach Media AG ("Goldbach"), Küsnacht/Switzerland each hold 50%, AdLINK Internet Media AG acquired a 30% share in the newly founded AdLINK Internet Media GmbH, Vienna/Austria ("AdLINK Austria") with the notarized signing of a contract on July 19, 2006. Goldbach Media AG ("Goldbach"), Küsnacht/Switzerland owns 70% of the equity and contributed its Austrian online business in the course of the company's formation. Both companies are consolidated as associated companies using the at-equity method. Their results are attributed to the AdLINK Media segment.

Business operations of AdLINK Internet Media APS, Copenhagen/Denmark were discontinued as of February 28, 2006 and closure proceedings were opened. The company is expected to be eliminated from the Commercial Register in the first quarter of 2007.

In the course of the fiscal year the non-operating companies AdLINK International Internet Sales Ltd., Dublin/Republic of Ireland, AdLINK Benelux Limited, Dublin/ Republic of Ireland, AdLINK Italy Limited, Dublin/ Republic of Ireland and AdLINK International Internet Purchasing Limited, Dublin/Republic of Ireland were dissolved.

Furthermore, closure procedures opened in 2005 were continued for the non-operating company CibleClick Ltd., London/Great Britain. The company was deconsolidated in fiscal year 2006. The company was officially eliminated from the Commercial Register in January 2007.

There were no significant effects from deconsolidation, as none of the companies were still operating nor had any significant assets.

The company net:dialogs GmbH, Montabaur/Germany was formed with the notarized signing of a contract on October 20, 2006. net:dialogs GmbH will focus in future on gaining customers and contacts for major clients.

3) SUMMARY OF SIGNIFICANT ACCOUNTING, VALUATION AND CONSOLIDATION POLICIES

a) Basis of preparation

In accordance with Article 4 of the so-called IAS Ordinance (Ordinance (EU) No. 1606/2002 of the European Parliament and Council of July 19, 2002 concerning the application of international accounting standards, ABl. EU No. L 243 p. 1), the AdLINK Group prepares its consolidated annual financial statements according to IFRS (International Financial Reporting Standards). The Company also observed and applied the supplementary regulations of Section 315a (1) German Commercial Code (HGB). All IFRS standards valid on the balance sheet date and as applied within the European Union were observed.

The balance sheet date is December 31, 2006. The reporting currency is euro (€). Amounts stated in the notes to the financial statements are in euro (€) or thousand euro (€k). The consolidated financial statements are always drawn up on the basis of historical costs.

The consolidated financial statements comprise the annual financial statements of AdLINK Internet Media AG and its subsidiaries as of December 31 of each fiscal year. The annual financial statements of subsidiaries, including associated companies, are prepared as to the same balance sheet date and using the same standardized accounting and valuation methods as those applied by the parent company.

All intercompany balances, transactions, income, expenses, profits and losses from intercompany transactions contained in the carrying value of assets are fully eliminated.

Subsidiaries are fully consolidated from the point of acquisition, i.e. from the date on which the Company gained control. Consolidation ends as soon as the parent company no longer has control over the subsidiary.

The acquisition costs for the purchase of additional shares in the subsidiaries Cible-Click Holding and Sedo Germany in fiscal year 2006 are carried as goodwill, less the acquired minority interests, and were divided between the two companies which represent cash-generating units. Minority interests were disclosed in the period's result according to the corresponding shareholdings valid in the individual months.

The Supervisory Board approved the consolidated financial statements for 2005 at its meeting on March 22, 2006. The annual financial statements were published in the German Federal Gazette No. 169 (Bundesanzeiger) on September 7, 2006.

The consolidated financial statements for 2006 were prepared by the Company's Management Board on March 6, 2007 and subsequently submitted to the Supervisory Board. The consolidated financial statements will be presented to the Supervisory Board for approval on March 28, 2007.

b) Compulsory application of new accounting standards

The accounting and valuation policies applied mainly correspond to the methods applied in the previous year. There were no significant effects on the presentation of the Company's net assets, financial situation and results of operations from the application of new or amended standards and interpretations.

The IASB adopted amendments to existing IFRS standards as well as new IFRS standards and published new interpretations of the International Financial Reporting Committee (IFRIC), which are compulsory for companies for all fiscal years beginning on or after January 1, 2006. These concern the standards IAS 1 and IAS 19, IAS 21, IAS 39 and IFRS 4, as well as the interpretations IFRS 4, 5 and 6. The

changes have no significant effects on the annual financial statements of the Ad-LINK Group.

c) Voluntary application of new accounting standards

In addition to the compulsory IFRS standards for fiscal year 2006, the International Accounting Standards Board (IASB) and International Financial Reporting Interpretations Committee (IFRIC) also published further IFRSs and IFRICs which have already been endorsed by the EU, but which are not compulsory until a later date. The following only includes those standards and interpretations which might be of relevance for the Group. The option of earlier, voluntary adoption of these standards/interpretations was not exercised.

On August 18, 2005 the IASB published IFRS 7 “Financial Instruments: Disclosures”. This replaces IAS 30 and adopts all regulations included in IAS 32 concerning disclosures in the notes to the annual financial statements. In this connection, amendments and additions were also made to IAS 1 with regard to capital disclosures. The standard results in a fundamental restructuring of disclosure obligations for financial instruments. In particular, details are required regarding management objectives, methods, risks, securities and processes. The disclosure obligations of IFRS 7 and revised detail requirements concerning capital of IAS 1 need not be applied until reporting periods beginning on or after January 1, 2007; earlier application is recommended. The new regulations of IFRS 7 do not result in any changes in valuation for the Company.

No significant impact on the Group’s net assets, financial situation and results of operations is expected in future from the application of the newly published IFRIC 7, IFRIC 8 and IFRIC 9, which have already been endorsed by the EU but not yet voluntarily applied by the Company as of December 31, 2006.

d) Revenue recognition

The Company generates its revenue in the field of online advertising and related areas. The services offered can be divided into three main business areas, AdLINK Media, Affiliate Marketing and Domain Marketing. All three areas are subject mainly

to the same market structures and risks, yet vary to some extent with regard to their technology infrastructure and/or pricing models.

AdLINK Media segment

In the Media segment, the Company obtains its sales income from the sale of advertising space on internet pages (banners, skyscrapers, rectangles, content integration, pop-ups etc.) with the charges being based upon screening frequency or the number of clicks recorded. Other sales income is generated by sending e-mails and newsletters.

When selling advertising space and placing advertisements, the volume of the sales income is dependent on the coverage achieved. Revenue is recognized if the campaign results correspond to the performance agreement, that is when the relevant screening counts, clicks and registrations are actually generated. The associated charges are, to a large extent, presented on a monthly basis. In sub-markets or individual cases, charges are made in advance or at the commencement date of the campaign. Some charges made for services not yet invoiced are posted as accrued expenses and deferred income. Services provided but not yet invoiced are defined as accounts receivable.

Amounts agreed with and invoiced to the customer less all rebates and agreed annual bonuses are declared as sales income. The amounts credited by AdLINK to the operators of the websites are expressed as production costs for providing the services required to obtain the sales income. To a large extent, the value of the sales income is expressed on a gross basis, as the full commercial risk of the transaction is carried by AdLINK.

Affiliate Marketing segment

The Company operates an internet platform for advertisers on the one hand and website owners on the other. The advertisers (merchants) offer affiliate programs which website operators (affiliates) can participate in. As part of these programs, the affiliates incorporate the advertisers' (merchants') messages on their web pages

and receive a previously agreed compensation amount. Performance may be based on showings, on the number of generated clicks/registrations or on the volume of sales generated.

The Company invoices the merchant advertiser for the advertising services performed by the affiliates according to the agreed conditions and credits the amount of generated advertising to the affiliates. The value of the sales income is expressed on a gross basis, as the full commercial risk of the transaction is carried by the company.

Domain Marketing segment

Sedo operates a trading platform for the secondary domain market, i.e. domain owners can sell their domains via the platform. The company also offers domain owners the possibility to market non-used domains for advertising purposes (domain parking).

The Company realizes performance-based (mainly per click) advertising revenues from domains which have been “parked”. The company receives gross revenues on a monthly basis and pays the domain owners a proportionate fee according to the respective contractual conditions. The value of the sales income is expressed on a gross basis, as the full commercial risk of the transaction is carried by the company.

The Company also generates its revenues in part from sales commission received for the successful marketing of domains, for all services concerning this topic (e.g. domain value assessments and services connected with domain rights transfer, trustee services etc.). Revenue is recognized on completion of the transaction or preparation of the value assessment.

e) Cash and cash equivalents

Cash and cash equivalents consist of bank balances, checks and cash which in total exhibit a high degree of liquidity and a residual term of less than 3 months.

For the purposes of the cash flow account, cash and cash equivalents also include the funds and short-term balances described above.

f) Trade accounts receivable

Trade accounts receivable are stated at fair value when originally carried and subsequently at depreciated cost (this generally corresponds to the nominal value) net of adequate allowances for doubtful accounts.

Allowances for doubtful accounts are made on the basis of experience in classification of the accounts receivable according to their age and on the basis of other information concerning the impairment of customer-specific accounts.

g) Shares in associated companies

Investments in associated companies are valued according to the equity method. The equity held in the associated company is always originally carried at cost. In subsequent valuations the investment value is adjusted according to the proportion of net assets of the associated company.

h) Property, plant and equipment

Property, plant and equipment are carried at cost less cumulative depreciation. Gains or losses from the disposal of assets are recognized as other operating income or expenditure.

Property, plant and equipment are depreciated using the straight-line method over their expected useful lives.

The useful life periods can be found in the following summary:

	Useful life in years
Vehicles	5 to 6
Other operational and office equipment	3 to 10
Office furniture and fixtures	5 to 13

i) Intangible assets (without goodwill)

In accordance with IAS 38, the disclosed trademarks affilinet® und Sedo® valued as part of the purchase price allocation were classified as assets with an unlimited useful life and thus not subjected to scheduled amortization.

Other intangible assets with a limited useful life, such as purchased software, licenses and other rights are stated at acquisition cost less scheduled straight-line amortization over their normal useful life. The amortization period and amortization method are reviewed at the end of each fiscal year.

	Useful life in years
Trademark rights*	unlimited
Sedo internet platform	5
Databases	5
Licenses	3 to 6
Software*	3 to 5

* On the basis of management estimates, the brand CibleClick® was assumed to have a different amortization period of 2 years, as the Company aims to adopt a standardized brand for the Affiliate Marketing segment. The software platform of CibleClick was amortized over 1 year, as the Company plans to migrate the software system to the technical platform of affilinet Germany in fiscal year 2007.

j) Goodwill

Goodwill arising from business combinations is initially valued at cost, based on the surplus acquisition cost above the Group's proportion of the fair value of acquired identifiable assets, liabilities and contingent liabilities. Following initial valuation, goodwill is valued at cost less cumulative impairment.

In accordance with IFRS regulations, goodwill is not amortized in scheduled amounts, but subjected to an impairment test at least once a year ("impairment-only")

method). This does not depend on any indication of impairment. In the case of impairment, the respective goodwill items are adapted to the assessed value by means of non-scheduled amortization. There is no restatement of values.

k) Impairment of assets

Property, plant and equipment and intangible assets (including) goodwill are reviewed for impairment if circumstances or changes in circumstances indicate that the book value of an asset may not be realizable. As soon as an asset's book value exceeds the sum that it can realize, an impairment of value is recognized with an effect on net income. The recoverable amount is the higher of fair value less the cost of disposal and value in use. Fair value less the cost of disposal is the amount that can be realized from the sale of an asset, or a cash-generating unit, in a transaction between knowledgeable, willing parties on market terms. The asset's value in use is the cash value of future cash flow to be expected from the asset or cash-generating unit. The recoverable amount is determined individually for each asset or, if that is not possible, for the cash-generating unit to which the asset belongs.

If the value in use of the cash-generating unit is less than the book value of the underlying net asset plus goodwill, an impairment of value is recognized with an effect on net income.

In fiscal year 2006, there was no non-scheduled amortization of assets (prior year: € 1,679k).

l) Income taxes

Income taxes are calculated by means of the liability method, whereby deferred tax asset and liability items are recorded for all accounting and valuation differences between the tax base of an asset or liability and its carrying amount in the balance sheet according to IFRS. Deferred tax assets and liabilities are valued on the basis of current tax rates for the respective national subsidiary, which apply for the period in which the temporary differences are expected to be balanced.

The carrying amount of deferred taxes is reviewed on each balance sheet date and reduced, where necessary, by that amount by which it is no longer probable that a sufficient taxable result will be available for which the asset can be used. Deferred tax claims not yet utilized are reviewed on each balance sheet date and carried at the amount by which it is probable that a future taxable result will be available for which the asset can be used.

When examining the expected ability of use for deferred tax assets, the expected results of the next three years after the balance sheet date are taken, assuming two of which are profitable.

m) Management's exercise of discretionary rights and critical accounting estimates

The preparation of consolidated financial statements in accordance with IFRS requires the Management Board to make future-based estimates and assumptions in certain cases that affect the assets, debts and financial liabilities reported on the balance sheet date as well as the income and expenditures of a reporting period. Actual results and developments may differ from these estimates and assumptions.

The most important future-based assumptions, and other major sources of uncertain estimates as of the balance sheet date, which bear a potential risk of significant adjustment to the carrying values of assets and liabilities in the coming fiscal years concern goodwill and deferred tax assets. We refer here to the explanations regarding the capitalization of deferred tax assets for loss carryforwards 3)l),16) and impairment tests for goodwill and other intangible assets 3)k).

Further estimates were made regarding the useful lives of non-current assets, the formation of accruals, the assessment of impairment regarding trade receivables, the determination and valuation of acquired intangible assets as part of the purchase price allocation or the assessment of stock-based compensation programs.

n) Foreign currency translation

Translation of individual consolidated financial statements produced in a foreign currency is carried out according to the method of the functional currency. The functional currency of each subsidiary company is the local currency of the country where the subsidiary company is located. Consequently assets and liabilities which are shown in the financial statements in a foreign currency (excluding equity capital) are converted into euros at the rate which applied on the balance sheet date. The conversion of revenues and expenses is made using the average exchange rate prevailing during the respective fiscal year. Differential amounts resulting from the foreign currency conversion which arise from valuation of equity capital at an historical rate and the assets and other liabilities on the effective date of the financial statements are stated under equity as a currency adjustment without effect on net income.

o) Trade accounts payable

Trade accounts payable are stated initially at fair value (generally the discharge or repayment values for short-term liabilities).

p) Provisions

In accordance with IFRS regulations, provisions are formed if there is a current obligation toward a third party from a past event, which is expected to lead to a future outflow of funds whose amount can be reliably estimated. Provisions which do not already lead to an outflow of funds in the following year are carried at their discounted repayment value as of the balance sheet date. Amounts are discounted at market interest rates. The repayment value includes all expected cost increases.

q) Borrowing costs

In accordance with IAS 23, borrowing costs are recognized as an expense in the period in which they are incurred.

r) Earnings per share

Basic earnings per share is calculated by dividing the result attributable to the owners of registered shares by the weighted average number of shares outstanding during the period.

Diluted earnings per share are calculated similarly to basic earnings per share with the exception that the average number of shares outstanding increases by the portion which would result if the exercisable conversion rights of convertible bonds issued had been exercised. Net income is also adjusted for interest expenses after taxes, payable on potentially exchanged convertible bonds. On December 31, 2006 the capital stock was divided into 25,914,900 (December 31, 2005: 25,851,945) registered shares having a theoretical share in the capital stock of € 1.00. The weighted average number of shares used for the calculation amounted to 25,884,411 (prior year: 25,833,092) for fiscal 2006. Using this number of units results in earnings per share of € 0.47 (previous year: € 0.04)

In calculating the diluted number of average outstanding shares, only those options were considered whose strike price was greater than the average share price for the relevant year. The theoretical diluted number of average outstanding shares for fiscal 2006 amounted to 26,748,933 (prior year: 26,058,930). Diluted earnings per share thus amounted to € 0.45 (prior year: € 0.04).

s) Stock-based compensation

In accordance with IFRS 2, all expenses resulting from transactions compensated with equity instruments are valued at the fair value of the granted equity instruments at the time they were granted. Valuation was made with the aid of a binomial model (see note 26 for details). Transactions compensated by means of equity instruments are expensed for the period in which the performance or service conditions are fulfilled with a corresponding increase in equity. This period ends as soon as the respective employee is irrevocably entitled to subscribe for shares (“moment of initial exercise possibility”). From the time of reporting to the moment of initial exercise possibility, the cumulative expenses for transactions compensated with equity instruments reflect that proportion of the waiting period already completed and the

number of equity instruments deemed finally vested, according to the Group's best estimate. The amount credited or charged to the income statement reflects the development of the cumulative expenses at the beginning and end of the period under review.

In fiscal year 2006, expenses resulting from stock-based compensation amounted to € 303k (prior year: € 355k).

t) Subsequent events

Subsequent events are all beneficial or detrimental events which occur between the balance sheet date and the day on which the annual financial statements are released for publication. Events which provide further substantial evidence of matters already apparent on the balance sheet date are included in the consolidated financial statements. Events concerning occurrences after the balance sheet date are presented in the notes to the annual financial statements and in the management report, if they are of material significance.

Up to the publication of this report, however, there were no events of material significance.

u) Business combinations

IFRS 3 was applied to all business combinations whose contracts were signed on or after March 31, 2004.

In the course of its first-time valuation process, the Group values all identifiable assets, liabilities and contingent liabilities fully and at their fair value on the date of acquisition. Minority shareholdings are thus carried at their proportion of the fair value of the assets and liabilities.

Moreover, every intangible asset is now examined to determine whether it has a limited or unlimited useful life. Please refer to note 3)i) for further details

v) Retrospective adjustments

Intangible assets were identified in connection with the acquisitions of Sedo GmbH and affilinet GmbH in fiscal year 2005, which led to prorated amortization in fiscal 2005. Due to the acquisition of CibleClick Performances S.A. in December 2006, amortization of capitalized intangible assets in connection with the company acquisitions are no longer insignificant and are thus separately disclosed to improve clarity. In fiscal year 2005, amortization of intangible assets were disclosed under administrative expenses. Amortization of intangible assets resulting from company acquisitions amounted to € 1,776k (prior year: € 828k). Of this total, amortization of databases accounted for € 1,001k (prior year: € 337k), amortization of the internet platform for € 376k (prior year: € 282k), amortization of software for € 344k (prior year: € 209k) and amortization of trademarks for € 55k (prior year: € 0k). Amortization of intangible assets resulting from company acquisitions is disclosed separately in the income statement. There is no allocation to individual divisions.

w) Purchase of additional shares in companies already fully consolidated

The purchase of additional shares in companies already fully consolidated is made in accordance with the so-called "parent-entity-extension" method. According to this method, positive or negative goodwill is calculated as the difference between purchase price and prorated assets (acc. to IFRS carrying values). The positive or negative goodwill values are subsequently carried in the same way as those arising from business combinations.

4) ACQUISITION OF COMPANIES

a) Acquisition of additional shares in Sedo GmbH

In 2005 AdLINK AG acquired a total of 52.14% of shares in Sedo Germany. On November 20, 2006, AdLINK Germany purchased a further 23.80% of shares in Sedo Germany. At the same time, AdLINK AG transferred the 52.14% it already held as a non-cash contribution to AdLINK Germany, so that as of December 31, 2006, AdLINK Germany held 75.94% of shares in Sedo Germany.

The acquisition costs of the additional shares amounted to € 34,606k and comprised costs directly allocated to the acquisition amounting to € 101k. Total acquisition costs for the Sedo shareholding of 75.94% in fiscal years 2005/2006 therefore amounted to € 48,945k, of which € 146k were ancillary purchase costs.

In the course of the increase in shares held in Sedo Germany, a profit transfer agreement was concluded with AdLINK Germany, effective from January 1, 2007. On the basis of this profit transfer agreement, Sedo Germany will transfer its complete result to AdLINK Germany. As compensation for the minority shareholders, the contract allows for a dividend payment of € 250k per fiscal year, payable within three months after the balance sheet date. The contract cannot be terminated before December 31, 2011.

As part of the purchase of additional shares, the minority shareholders were granted a conditional put option, which can be exercised in the period from January 1, 2009 to December 31, 2015. The option is conditional in as far as AdLINK has the right to oppose the exercise of the put option. The purchase prices depend mainly on the company's profit development.

In order to finance the purchase price for the shares in fiscal year 2005, United Internet AG provided a credit line of € 14,013k. The shares in Sedo Germany served as collateral for the loan. On conclusion of a new credit line agreement to finance the increased shareholding in Sedo Germany on December 20, 2006 (see explanations in note 5)b), the old credit line and corresponding collateral were suspended.

b) Acquisition of shares in CibleClick Performances S.A.

In fiscal 2005 the Group acquired 71.46% of shares in CibleClick Performances S.A., headquartered in Paris, France. The contract dated December 14, 2005 obliged the AdLINK Group to acquire 75% of shares in CibleClick Performance S.A., whereby the legal purchase of the remaining 3.54% stake was planned for the 2nd quarter of 2006. The purchase price of these first two tranches was dependent on the audited EBIT result for fiscal year 2005 of the CibleClick Group.

With payment on April 3, 2006, the additional 3.54% shareholding was acquired and the 2nd purchase installment settled for 71.46% stake acquired in December 2005. The remaining 25% of shares were acquired on October 20, 2006.

Total acquisition costs for the fiscal years 2005 and 2006 amounted to € 22,243k (€ 615k thereof were directly allocated ancillary purchase costs), of which an amount of € 11,209k was paid in fiscal year 2006.

c) Acquisition of shares in affilinet GmbH, Ebersberg/Germany

In fiscal 2005, the Group acquired 100% of shares in affilinet GmbH, Ebersberg/Germany, from the former owner United Internet AG as of April 1, 2005.

As United Internet AG and AdLINK AG are parent company and subsidiary, respectively, this acquisition was a transaction concerning the sale of an investment which was jointly controlled. The Company applied the so-called "separate entity approach". According to this method, the acquisition is to be treated pursuant to IAS 8 and concurrent application of IFRS 3 as a purchase transaction with third parties.

The acquisition costs of the shares in affilinet GmbH amounted to a total of € 16,039k (thereof € 52k ancillary costs directly allocated to the acquisition).

5) TRANSACTIONS WITH RELATED PARTIES

a) Goldbach Media AG

Together, Goldbach Media AG and AdLINK AG operate two joint ventures in Switzerland and Austria. There are operating service relations for both companies between individual AdLINK Group companies and the two joint ventures at standard terms and conditions.

i) AdLINK Switzerland

There has also been a service contract between AdLINK AG and AdLINK Switzerland since fiscal year 2004. This regulates access of AdLINK Switzerland to services and systems provided by AdLINK AG following the establishment of a joint

venture agreement with Goldbach Media AG. This relates, in particular, to further involvement of AdLINK Switzerland in the existing DART contract, the inclusion of international website operators into the central accounting system and the use of central systems (especially the invoice handling system).

Under this agreement, AdLINK Switzerland was invoiced € 368k (prior year: € 217k) for part of the DART costs, € 166k (prior year: € 203k) for prorated fees of international websites and € 8k (prior year: € 25k) for other costs. A further € 64k (prior year: € 79k) was invoiced with effect on net income for services provided under the service contract and recorded as sales income. A further € 11k in connection with the brokering of international campaigns was disclosed as revenue.

ii) AdLINK Austria

Close operating cooperation was agreed in connection with the purchase of a 30% share in AdLINK Austria. In the course of initial integration measures, an amount of € 3k was netted by AdLINK AG for prorated DART costs and an amount of € 26k for prorated fees of international websites.

b) United Internet Group

On December 31, 2006 United Internet AG held 80.07% (prior year: 82.30%) of the capital stock and is consequently the majority shareholder of AdLINK.

In fiscal year 2005, AdLINK AG acquired 100% of shares in affilinet GmbH from United Internet AG for a purchase price of € 15,987k and 51.07% of shares in Sedo GmbH for a purchase price of € 14,031k. As part of the purchase agreement for these shares, United Internet AG provided AdLINK AG with credit lines to finance the purchase prices. The credit lines had variable interest rates according to the 3-month Euribor rate plus a fixed surcharge. In fiscal year 2006, the credit lines of United Internet AG were mostly replaced during the year by bank credit lines.

In connection with the financing of additional shares in Sedo Germany, a new credit line agreement of € 65 million was signed on December 20, 2006, which replaces all previous credit agreements. The credit line is limited to January 30, 2007 and has a variable interest rate according to the 3-month Euribor rate plus a fixed surcharge.

In fiscal year 2006, interest expenses of € 822k (prior year: €386k) were incurred in connection with credit line agreements.

In fiscal year 2006, AdLINK was invoiced an amount of € 579 (prior year: € 274k) by companies of the United Internet Group for costs mainly relating to support for SAP projects, SAP service, personnel, recruitment, facility expenses, insurance, IT, investor relations and press PR. Furthermore, the business premises of AdLINK in Montabaur are rented from United Internet AG. Rental payments in this connection of € 112k (prior year: € 139k) were paid by AdLINK for the fiscal year 2006. The inter-company relationship regarding trade and sales taxes between AdLINK and United Internet AG was dissolved as of January 1, 2003.

There were changes regarding the offsetting of sales tax on IPO costs in fiscal year 2006 as a result of an EU verdict and its adoption in German tax legislation. Input sales tax amounts can now be officially offset. However, the IPO took place during former inter-company relationship regarding sales taxes and the reimbursement of sales tax amounts is therefore at parent company level (United Internet AG). As a result, there is a receivable of € 749k (€ 583k actual sales tax amounts plus accumulated interest as of December 31, 2006 of € 166k) as of the balance sheet date.

Websites run by GMX GmbH, a subsidiary of United Internet AG, were marketed by AdLINK in Switzerland and Austria under normal commercial conditions. GMX GmbH received income for advertising campaigns amounting to € 172k (previous year: € 200k).

In December 2005, AdLINK Internet Media GmbH Deutschland signed a sub-lease agreement with WEB.DE GmbH, an indirect subsidiary of United Internet AG. As of January 1, 2006, AdLINK Internet Media GmbH Deutschland sublets part of a rented building in Düsseldorf. The agreed terms and conditions are in line with the Company's own conditions. In fiscal year 2006, the volume of payments from the sub-lease amounted to € 85k.

Moreover, GMX GmbH and 1&1 Internet AG (also a subsidiary of United Internet AG) run affiliate programs in the affiliate network of affilinet Germany. affilinet GmbH generated revenue of € 4,745k (prior year: € 2,968k for April to December) from these affiliate programs.

As of fiscal year 2006, 1&1 Internet AG and 1&1 Internet Ltd. offer their customers in Germany and England the possibility to book advertising on the AdLINK Group's network. Under the terms of this cooperation, the AdLINK Group received payments of € 62k.

1&1 Internet AG and subsidiaries also market some of their unused domains via Sedo Germany. As part of this marketing activity, Sedo paid € 98k (prior year: 69k for the months April to December 2005) to the 1&1 Group.

c) Management Board and Supervisory Board

There were no changes in the composition of the Supervisory Board in fiscal year 2006. As of December 31, 2006 the Supervisory Board therefore consisted of Mr. Michael Scheeren (banker), as chairman of the Supervisory Board, Mr. Norbert Lang (member of the Management Board of United Internet AG) and Mr. Andreas Gauger (member of the Management Board of 1&1 Internet AG), as it did on December 31, 2005.

The Chairman of the Supervisory Board, Mr. Michael Scheeren, was also a member of the supervisory board of United Internet AG, Montabaur, and of United Internet Media AG, Montabaur. Mr. Michael Scheeren is also chairman of the supervisory boards of 1&1 Internet AG, Montabaur and NT plus AG, Osnabrück. In addition to his mandate with AdLINK AG, the deputy chairman of the Supervisory Board, Mr. Norbert Lang was also a member of the supervisory boards of twenty4help Knowledge Service AG, Montabaur, Deutsche Challenge 2007 AG, Munich, and United Internet Media AG, Montabaur (as of January 20, 2006) in fiscal year 2006.

The members of the Supervisory Board received remuneration totaling € 20k for fiscal year 2006 (previous year: € 21k).

In accordance with a resolution adopted by the Annual Shareholders' Meeting of May 17, 2005, Supervisory Board remuneration comprises the following components. Each member of the Supervisory Board receives a fixed amount of € 7,500.00 per year. The chairman of the Supervisory Board receives twice this amount. In addition to this fixed amount, each Supervisory Board member (including

the chairman) receives a variable amount based on the Company's performance. The variable amount is € 250.00 for every € 0.01 of earnings per share, as disclosed in the Company's consolidated financial statements, which exceeds a minimum amount of € 0.10 per share. The minimum amount increases annually by 10%, beginning in fiscal year 2006, i.e. the minimum amount of earnings per share amounts to € 0.11 per share. The variable remuneration element is limited to € 5k per Supervisory Board member.

In an agreement with the Supervisory Board members, it is company policy not to provide remuneration for supervisory board seats within the Group.

As of December 31, 2006, the Management Board continued to consist of three members: Guy Challen, Stéphane Cordier and Marc Stilke.

The Supervisory Board is responsible for determining the remuneration of Management Board members. The remuneration received by the members of the Management Board of AdLINK Internet Media AG is performance-oriented and consists of fixed and variable elements.

The fixed element is paid monthly as a salary. The size of the variable element is dependent upon the attainment of certain fixed financial objectives identified at the beginning of the year and related to the budget.

Total remuneration paid to the members of the Management Board for fiscal year 2006 amounted to € 748k (prior year: € 596k). Of this total, the fixed sums amounted to € 443k (prior year: € 398k) and the variable sums to € 305k (prior year: € 198k). The remuneration in fiscal year 2006 paid to Mr. Stéphane Cordier amounted to € 314k (prior year: € 257k), of which € 149k (prior year: € 160k) was fixed and € 165k (prior year: € 97k) variable. In the case of Mr. Guy Challen, the total remuneration of € 165k (prior year: € 147k) consisted of a fixed element of € 114k (prior year: € 114k) and a variable element of € 51k (prior year: € 33k). Mr. Stilke received total remuneration of € 269k (prior year: € 192k), of which € 180k (prior year: € 124k) was fixed and € 89k (prior year: € 68k) variable.

The Management Board member Guy Challen also exercised a total of 34,000 conversion options from the convertible bond program, in accordance with a resolution of the Annual Shareholders' Meeting of April 4, 2000. At the time of issue, there was a fair value of € 1.23 per conversion option.

The number of shares and subscription rights of AdLINK AG held by members of the Management Board and the Supervisory Board is given in the following table:

	Shareholding		Subscription rights	
	31.12.2006	31.12.2005	31.12.2006	31.12.2005
Supervisory Board				
Michael Scheeren	72,656	72,656	-	-
Norbert Lang (indirectly)	30,850	-	-	-
Andreas Gauger	1,000	1,000	-	-
Management Board				
Guy Challen	-	-	136,000	170,000
Stephane Cordier	-	-	400,000	400,000
Marc Stilke	-	-	400,000	400,000
Total	104,506	73,656	936,000	970,000

6) COST OF SALES

The following table shows a breakdown of cost of sales:

	2006	2005
	k€	k€
Direct product cost	123,059	68,272
Personnel expenditure	7,247	5,311
Depreciation	237	139
Other costs	1,441	1,223
Total	131,984	74,945

7) SELLING EXPENSES

The following table shows a breakdown of selling expenses:

	2006	2005
	k€	k€
Personnel expenses	8,538	5,628
Depreciation	318	226
Other costs	4,039	2,745
Total	12,895	8,599

8) GENERAL AND ADMINISTRATIVE EXPENSES

The following table shows a breakdown of general and administrative expenses:

	2006	2005*
	k€	k€
Personnel Expenses	6,895	4,652
Depreciation	321	261
Other costs	4,222	3,744
Total	11,438	8,657

* In order to aid interpretation, amortization in connection with company acquisitions is now disclosed separately in the income statement. The prior-year comparative figures were adjusted accordingly.

9) ASSET IMPAIRMENT CHARGES (INCLUDING GOODWILL)

No non-scheduled amortizations were necessary in fiscal year 2006. In the previous fiscal year, amortization of € 1,679k consisted of the following amounts: AdLINK Italy € 200k, AdLINK Denmark € 631k and AdLINK Sweden € 848k.

For further information on impairment tests of existing goodwill, please refer to note 15).

10) OTHER OPERATING INCOME / EXPENSES

The other operating items of income and expense were as follows:

	2006	2005
	k€	k€
Currency gains / losses	176	-115
Accounts receivables losses	-509	-195
Others costs	599	101
Total	266	-209

In fiscal year 2006, the Company benefited from a positive currency development of both the US dollar and GB pound, whereby $\frac{3}{4}$ was attributable to US activities. In contrast, activities in the USA in the previous year incurred currency losses of € 180k.

The increase in accounts receivable losses was mainly due to activities in Italy, France and the United Kingdom. Additional allowances for receivables were formed in all three sub-markets.

11) INCOME TAXES

Income taxes were made up of the following:

	see note	2006 k€	2005 k€
Posted taxes for earlier periods		-20	0
Posted taxes for the current period		-7,896	-3,281
Reversal of deferred tax liabilities		670	326
Reversal of deferred tax assets	16)	-33	-1,142
Capitalization of deferred tax assets	16)	4,722	3,094
Deferred tax assets for IPO costs		215	
		<u>-2,342</u>	<u>-1,003</u>

Of posted taxes for the current fiscal year, the main amounts relate to AdLINK Netherlands, Sedo Germany and Sedo USA, as there were no longer any loss carryforwards for these companies. In addition, there were first-time taxes resulting from minimum tax regulations amounting to € 587k for AdLINK AG, of which € 20k related to earlier periods.

In the previous year, there were still taxes for affilinet Germany. As a result of the profit transfer agreement between affilinet GmbH and AdLINK AG, profit was taxed by AdLINK AG.

In fiscal year 2006, part of the loss carryforwards of our Belgian (€ 180k) and Spanish (€ 385k) subsidiaries were capitalized for the first time. In the current fiscal year, the remaining loss carryforwards of the two companies as of the balance sheet date were capitalized and resulted in a positive effect of € 89k.

In addition to the profit transfer agreement between AdLINK Germany and AdLINK AG approved by the Annual Shareholders' Meeting of May 17, 2005, the Annual Shareholders' Meeting of June 12, 2006 also approved a profit transfer agreement between affilinet Germany and AdLINK AG. This enabled the utilization of loss carryforwards of AdLINK AG and a partial capitalization of deferred taxes amounting to

€ 2,529k was already made in the previous year. Due to the profit transfer agreement of November 20, 2006 between AdLINK Germany and Sedo Germany, effective as of fiscal year 2007, the use of the remaining loss carryforwards of AdLINK AG is foreseeable in the next few years. For this reason, the remaining loss carryforwards of AdLINK AG as of the balance sheet date were capitalized and resulted in a one-off positive effect of € 4,530k.

In the previous year, capitalized loss carryforwards amounting to € 1,104k of AdLINK Germany were reversed, as they are not usable in the period in which the profit transfer agreement is valid. In fiscal year 2006, deferred tax assets of the English subsidiary amounting to € 39k (prior year: € 38k) were reversed.

In the fiscal year 2006, the English subsidiary disclosed a negative tax result. However, no deferred tax assets were formed for the company for the fiscal year. As a positive tax result is expected in future, only part of the existing deferred tax assets were reversed for reasons of continuity. Deferred tax assets of the company amount to € 229k.

Reconciliation of the overall tax rate to the effective tax rate of the Company was carried out as follows:

In k€	2006	2005
Net income before tax	18,684	3,630
Tax rate	38.00%	36.80%
Anticipated tax expense	-7,100	-1,336
Goodwill amortization non-deductible for tax purposes	0	-618
Capitalization of deferred taxes on loss carryforwards, not formed in previous years	4,689	1,962
Expenses from the guaranteed dividend for minority shareholders	-411	0
Allowances for deferred tax assets on tax losses of the fiscal year	-496	-542
Utilization of tax loss carryforwards, not capitalized in previous years	1,444	439
Income and expenses non-deductible for tax purposes and effects from tax rate changes	-603	-506
Effect of the compensation payment of United Internet AG in connection with the utilization of loss carryforwards	0	-773
Expenses from shareholder financing, non-deductible for tax purposes	-220	-142
Deferred taxes on subsequent reduction of IPO costs	214	0
Differences in tax rates between AdLINK Media AG and its subsidiaries	-337	313
Non-taxable at-equity result	477	200
Tax expense	-2,343	-1,003

The change in tax rate results from concluded profit transfer agreements with affilinet Germany and AdLINK Germany. These have resulted in a changed composite trade tax rate, as the locations of the two consolidated companies have higher trade tax rates in part. In the previous year, the Company's composite trade tax rate amounted to 14% and the corresponding effective tax rate to 10.4%.

12) SHARES IN ASSOCIATED COMPANIES

The AdLINK Group owns a 50% shareholding in AdLINK Switzerland, a joint venture with the Goldbach Group, as well as a 30% stake in AdLINK Austria. In the case of both companies, Goldbach Media AG is responsible for the operational management. As in the previous year, therefore, the companies are consolidated as associated companies using the equity method, whereby the results of AdLINK Austria are only included pro rata temporis from August 1, 2006. Both companies are included in the AdLINK Media segment. The following table provides some financial information about the companies according to their prorated shareholdings. In a notarized contract signed on July 19, 2006, AdLINK AG acquired a 30% interest in AdLINK Internet Media GmbH, Vienna. The company was a spin-off of the Austrian online division of the Goldbach Media Group. The purchase price amounted to € 5k.

	2006	2005
Carrying amounts (prorated acc. to shareholding)	k€	k€
Current assets	3,754	2,262
Non-current assets	782	398
Current liabilities	2,487	1,360
Non-current liabilities	4	0
Prorated net assets	2,037	1,300
Revenues and earnings (prorated acc. to shareholding)		
Sales revenues*	8,980	5,493
Net profit*	1,249	524
*prorated acc. to purchase date		
Carrying value of investment	3,012	2,207

The carrying amounts are as follows:

	2006
	k€
Opening amount	2,207
Result 2006	1,249
Additions from acquisitions	5
Dividend payments 2006	-449
Closing amount	3,012

The accounting procedures adopted relating to shares in associated companies are in line with IFRS.

The equity result for fiscal year 2006 is composed as follows:

	2006	2005
	k€	k€
Prorated result AdLINK Switzerland	1,215	543
of which attributable profit available for dividends	812	536
of which attributable profit not available for dividends	7	7
of which deferred taxes	396	0
Prorated result AdLINK Austria (as of Aug 2006)	41	n/a
of which attributable profit available for dividends	26	n/a
of which deferred taxes	15	n/a
Equity result	1,256	543

In fiscal year 2004 prorated loss carryforwards of AdLINK Switzerland amounting to CHF 6,135k were capitalized. As of December 31, 2006 the remaining loss carryforwards of the contributed Goldbach companies amounting to CHF 6,570k were capitalized and resulted in a profit effect of € 396k.

AdLINK Austria was a spin-off of the Austrian online division of the Goldbach Media Group. Loss carryforwards of € 10,897k were transferred at the time of the spin-off. As the company reached break-even, € 200k of the loss carryforwards were capitalized and resulted in a prorated profit effect of € 15k.

Profits which can be allocated but not distributed result from valuation differences between local annual financial statements and the consolidated annual financial statements of AdLINK Switzerland.

13) PROPERTY, PLANT AND EQUIPMENT

Capital expenditures of € 1,175k in 2006 result mainly from expansion and modernization of the server park and office infrastructure (furniture, computers, printers, telephone system) totaling € 879k and the partial replacement and expansion of the vehicle fleet (€ 296k).

14) INTANGIBLE ASSETS

The decline in intangible assets resulted from amortization of € 1,776k on capitalized intangible assets as part of the purchase price allocation 2005 (trademarks, software, data bases and platforms).

Additions of € 600k resulted from actual investments. These investments mainly concerned the modernization and development of existing infrastructure and standard software.

The down-payments made in 2005 for the introduction of SAP modules were capitalized as scheduled in the first quarter of 2006. Additions in 2006 relate to introduction costs for SAP modules (€ 88k), development costs of an AdServer system (€ 72k) and down-payments for the development of human resource software (€ 48k). Completion is planned in the 1st and 2nd quarters of 2007, respectively.

15) GOODWILL

Goodwill acquired as part of business combinations was subjected to impairment tests for the cash-generating units listed below. As of December 31, 2006 goodwill was divided as follows:

2006				in k€	
	As of Jan. 1, 2006	Additions		Net Dec. 31, 2007	
AdLINK Belgium	440	-		440	
AdLINK France	1,183	-		1,183	
AdLINK Germany	1,631	-		1,631	
AdLINK Italy	264	-		264	
AdLINK Netherlands	1,200	-		1,200	
AdLINK Spain	1,726	-		1,726	
AdLINK UK	1,711	-		1,711	
affilinet Germany	11,917	-		11,917	
Sedo Germany	11,597	30,596		42,193	
CibleClick Holding	17,040	3,706		20,746	
Goodwill total	48,709	34,302		83,011	

The comparative values for 2005 were:

2005					in k€	
	As of Jan. 1, 2005	Additions	Non-scheduled amortization 2005		Net Dec. 31, 2005	
AdLINK Belgium	440	-	-		440	
AdLINK Denmark	631	-	631		0	
AdLINK France	1,183	-	-		1,183	
AdLINK Germany	1,631	-	-		1,631	
AdLINK Italy	464	-	200		264	
AdLINK Netherlands	1,200	-	-		1,200	
AdLINK Spain	1,726	-	-		1,726	
AdLINK Sweden	848	-	848		0	
AdLINK UK	1,711	-	-		1,711	
affilinet Germany	-	11,917	-		11,917	
Sedo Germany	-	11,597	-		11,597	
Cibleclick Holding	-	17,040	-		17,040	
Goodwill total	9,834	40,554	1,679		48,709	

In both years, shares in joint ventures for AdLINK Switzerland contained net goodwill of € 952k.

As the goodwill in question concerns intangible assets with an unlimited useful life, an impairment test is carried out at least once per year on the level of the cash-generating units. The recoverable amount of the cash-generating units is calculated on the basis of a value-in-use calculation using cash flow forecasts. The value-in-use calculation is based mainly on the following assumptions:

Company planning is based on the budget for fiscal year 2007 as approved by the Supervisory Board. On the basis of this planning, sales expectations are extrapolated to 2011 according to external market studies. Cash flows after this five-year period are extrapolated on the basis of an annual growth rate of 1%. The discounted interest rate used for the cash flow forecasts was between 15% and 19%, according to the respective cash-generating unit.

The Company believes that no possible and sensible amendment of any of the underlying assumptions for determining the value in use of the cash-generating units could result in the carrying values of the cash-generating units significantly exceeding their recoverable values.

16) DEFERRED TAX ASSETS

Deferred taxes are the expected income tax expenses or refunds resulting from differences between the carrying amounts of assets and liabilities in the annual financial statements according to commercial law and the tax values used to calculate the taxable result. Deferred taxes are formed to the extent to which it appears probable that a taxable result will be available for which the deductible, temporary difference can be used.

The carrying amount of deferred taxes is reviewed on each balance sheet date and reduced, where necessary, by that amount by which it is no longer probable that a sufficient taxable result will be available for which the asset can be used.

Under German tax law, income taxes comprise corporate income tax and trade earnings tax together with the solidarity surcharge. AdLINK Internet Media AG pays

an average trade earnings tax rate of 15.75% (prior year: 14%, see note) which is deductible when determining corporation tax. This results in an effective tax rate of 11.6%. A supplementary solidarity surcharge of 5.5% is levied on the domestic corporation tax of 25%.

I

n accordance with IAS 12, deferred tax assets are recognized for future benefits associated with tax loss carryforwards. The time limit for utilizing net loss carryforwards in different countries is as follows:

- Belgium: indefinite
- Spain: 15 years
- Great Britain : indefinite
- France: indefinite
- Sweden: indefinite
- Italy: 5 years
- Germany indefinite, but minimum taxation

The following table provides a summary of the existing losses carried forward

	k€	
Germany		
Corporation tax losses	26,088	26.4%
Trade tax losses	10,177	11.6%
Sweden	4,749	28.0%
France	3,987	33.8%
UK	2,170	30.0%
Spain*	1,453	30.0%
Italy	1,063	33.0%
Belgium	609	34.0%

* In fiscal year 2007, there is a different tax rate in Spain of 32.5%.

Deferred taxes were calculated using a composite tax rate for each country.

The carrying amounts for deferred taxes relate to assets based upon tax loss carry-forwards (€ 7,942k) and temporary assets resulting from the difference between commercial and tax balance sheets (€ 103k). The division and changes in deferred taxes can be seen from the table below:

Company	k€			
	Jan. 1, 2006	New recognition	Reversal	Final status Dec. 31, 2006
AdLINK AG	2,529	4,633	-	7,162
AdLINK UK	262	-	-33	229
AdLINK Spain	385	62	-	447
AdLINK Belgium	180	27	-	207
	3,356	4,722	-33	8,045

With regard to changes in fiscal year 2006, please refer to the explanations under note 11). Deferred taxes for loss carryforwards amounting to a total of € 4,405k (prior year: € 10,637k) were not activated because the probability of being able to use them was not sufficiently great as of the balance sheet date.

17) CASH AND CASH EQUIVALENTS

	2006	2005
	k€	k€
Bank balances and cash in hand	5,915	10,796
Restricted cash	9	49
Cash and cash equivalents	5,924	10,845

The decrease in cash and cash equivalents results from an improvement of internal financing. The extensive inclusion of German and European subsidiaries in a cash pool helped to reduce current cash and cash equivalents.

18) TRADE ACCOUNTS RECEIVABLE

	2006	2005
	k€	k€
Trade accounts receivable	37,833	26,777
Bad debt allowances	-1,621	-1,356
Trade accounts receivable, net	36,212	25,421

The significant rise in receivables results from increased business volume.

19) ACCOUNTS RECEIVABLE FROM ASSOCIATED COMPANIES

The total amount includes € 79k (prior year: € 59k) receivable from AdLINK Switzerland and € 14k from AdLINK Austria.

20) ACCOUNTS RECEIVABLE FROM AFFILIATED COMPANIES

Until December 31, 2002 there was an inter-company relationship between AdLINK AG and United Internet AG regarding sales taxes. The reimbursement of sales tax amounts for IPO costs refers to the period of this inter-company relationship and is therefore at parent company level (United Internet AG). As a result, there a receivable of € 749k (€ 583k actual sales tax amounts plus accumulated interest as of December 31, 2006 of € 166k) as of the balance sheet date.

The remaining amount of € 894k relate to 1&1 Internet AG or its subsidiaries and result mainly from operating relations (prior year: € 868k).

21) OTHER ASSETS

	2006	2005
	k€	k€
Accounts receivable from the German tax office (sales tax, interest income tax)	1,576	949
Security deposits	350	296
Accounts receivable from employees	11	28
Others	41	567
Other assets	<u>1,978</u>	<u>1,840</u>

The security deposits result from rental agreements with individual subsidiary companies. The strong rise in receivables from the German tax office results mainly from increased business volume.

22) INVENTORIES

These concern mainly the stock of tradable domains and result from DomCollect, whose object is the purchase and sale of domains and their utilization for advertising purposes. As most operating activities were not started until 2006, there was no stock in the previous year.

23) OTHER CURRENT FINANCIAL ASSETS

Other current financial assets in the previous year consisted of marketable fund deposits which were dissolved in fiscal year 2006.

24) PREPAID EXPENSES

The increase in prepaid expenses results mainly from the expansion of operating activities of DomCollect, which acquired a large number of domains for the first time in fiscal year 2006. As registration is made on an annual basis, there is a corresponding accrued item. The item "Others" includes a number of smaller items, such

as leasing payments, payments for various services etc. The increase results from increased business volume.

	2006	2005
	k€	k€
Rent and associated costs	155	128
Sales tax on down-payments	8	138
Registration fees for domains	172	0
Others	252	162
Total	587	428

25) CAPITAL STOCK

By making partial use of the conditional capital, capital stock was increased in 2006 from € 25,851,945 to € 25.914.900 through the issue of 62,955 new registered ordinary shares to the value of € 62,955 against payment by cash. In fiscal year 2006, cash contributions result from the conversion of convertible bonds issued as part of the stock-based compensation program. On December 31, 2006, capital stock amounted to 25.914.900 registered shares each having a theoretical share in the capital stock of € 1.

As of December 31, 2006 the capital stock was held as follows:

	k€	%
United Internet AG	20,750	80.07
Free float	5,060	19.52
Management Board and Supervisory Board	105	0.41
	25,915	100.00

The authorized and conditional capital of AdLINK was as follows:

As of December 31, 2006	k€	k€
	<u> </u>	<u>Outstanding</u>
Capital stock	25,915	25,915
Authorized capital		
- 2005; until May 17, 2010	12,900	-
Conditional capita		
- I/2000 (convertible bond)	835	136
- II/2000 (convertible bond)	8	-
- 2004 (convertible bond)	1,250	642
- 2005 (warrant or convertible bond); until May 16, 2010	10,000	-

Authorized capital

At the Annual Shareholders' Meeting of May 17, 2005, Authorized Capital I., II. and III:/2000 was dissolved and authorization was given to create a new Authorized Capital 2005.

- Authorized Capital 2005

The Management Board is authorized, subject to approval by the Company's Supervisory Board, to increase the Company's capital stock on one or more occasions before May 17, 2010 by a total of € 12,900,000 by issuing new no-par shares for cash or non-cash contributions.

In the case of a capital increase for cash contribution, shareholders must be granted subscription rights. The Management Board is authorized, however, subject to approval by the Supervisory Board, to exclude shareholders' subscription rights in the following cases:

- should it be necessary in order to grant subscription rights for new shares to bearers of warrants, convertible bonds or warrant bonds issued by the Company or subordinated Group companies in the amount to which they are entitled on conversion of their conversion or warrant rights or fulfillment of their conversion obligation; or
- in the case that the issue amount of the new shares is not substantially lower than the quoted market price of Company shares with the same terms at the time of finalizing the issue amount and the shares issued in accordance with Sec. 186 (3) Sentence 4 AktG do not exceed in total 10% of capital stock. Shares sold or issued due to other authorizations in direct or corresponding application of Sec. 186 (3) Sentence 4 AktG under exclusion of subscription rights are to be accounted for in this limitation, or
- to equalize fractional amounts.

Furthermore, the Management Board is authorized, subject to the approval of the Supervisory Board, to exclude the right of shareholders to subscribe in the case of capital increases in return for non-cash contributions, especially in connection with the acquisition of companies, shareholdings or assets.

Conditional Capital

- Conditional Capital I+II/2000

At the Annual Shareholders' Meeting on April 4, 2000, the resolution was made to increase the capital stock conditionally by a maximum of € 1,992,000, divided into up to 1,992,000 no-par shares (Conditional Capital I/2000), and by a maximum of € 8,000, divided into up to 8,000 no-par shares (Conditional Capital II/2000). This conditional increase of capital was registered in the commercial register on May 8, 2000.

The conditional increase in capital is earmarked for conversion options to be granted to the bearers of convertible bonds. It will only be implemented to the extent that these conversion options are exercised. The shares participate in profits from the beginning of the fiscal year in which they are created by exercise of the conversion option. With regard to the members of the Management Board, the Supervisory Board is authorized and, with regard to the other persons entitled to convertible bonds, the Company's Management Board is authorized to define further details of the conditional capital increase and the execution thereof.

In accordance with a resolution passed at the Annual General Meeting on May 17, 2004, Conditional Capital I/2000 was amended to the extent that the capital stock is now only at € 1,000,000.00 divided into 1,000,000 no-par value shares. The reduction was made to reflect the maximum number of conversion rights when the plan was terminated. Conditional Capital was reduced by € 63k (prior year: € 46k) following the conversion of convertible bonds.

- Conditional Capital 2004

At the Annual Shareholders' Meeting held on May 17, 2004, a conditional increase of capital stock was agreed of € 1,250,000 divided into 1,250,000 no-par value shares. The relevant entry was made in the commercial register on August 4, 2004.

The conditional increase in capital is earmarked for a new employee stock option plan which guarantees conversion rights to the owners of new convertible bonds. It will only be implemented to the extent that these conversion options are exercised. The shares will participate in profits from the beginning of the fiscal year in which they are created by exercise of the conversion option. With regard to members of the Management Board, the Supervisory Board is authorized, and with regard to the other persons entitled to convertible bonds, the Management Board is authorized, to define further details of the conditional capital increase and the execution thereof. A maximum of € 650,000.00 of the conditional capital increase may be allotted to the members of the Management Board of the Company and a maximum of € 600,000.00 to employees of the Company or of subsidiary companies, including management employees of the subsidiary companies.

- Conditional Capital 2005

At the Annual Shareholders' Meeting held on May 17, 2005 a conditional increase of capital stock was agreed of € 10 million divided into 10,000,000 no-par value shares. The conditional capital increase is earmarked for shares to be granted to bearers or holders of warrant or convertible bonds, which the Annual Shareholders' Meeting of May 17, 2005 authorized the Company or a subordinated Group company to issue, providing the issue is in return for cash and the warrant or convertible bonds are not serviced from the stock of treasury shares or approved capital. It will only be implemented to the extent that the warrant or conversion options of the aforementioned bonds are exercised or conversion obligations from such bonds are fulfilled and providing the warrant or convertible bonds are not serviced from the stock of treasury shares or approved capital. The shares will participate in profits from the beginning of the fiscal year in which they are created by exercise of the warrant or conversion option. The Company's Management Board is authorized to define further details of the conditional capital increase and the execution thereof.

Treasury Shares

In accordance with the resolution passed by the Annual Shareholders' Meeting on June 12, 2006 the Management Board is authorized pursuant to Section 71 (1) No. 8 AktG to acquire treasury shares not exceeding 10% of its capital stock by December 11, 2007. The price paid for acquisition of these shares may not be more than 10% above or below the stock market price. The stock market price for the purpose of the above arrangement is the average closing price in floor trading for the Company's shares on the Frankfurt Stock Exchange over the 5 trading days preceding the share acquisition. This authorization replaces the resolution passed at the Annual Shareholders' Meeting held on May 17, 2005 regarding the acquisition of treasury shares.

The Management Board is authorized, subject to approval by the Supervisory Board, to sell the acquired treasury shares in another way than on the stock exchange or by offering them to all the shareholders if the shares are sold for cash at a price which is not substantially lower than the quoted market price of the Company's shares and subject to the same terms at the time of sale. The stock market price for the purpose of the above arrangement is the average closing price in floor trading for the Com-

pany's shares on the Frankfurt Stock Exchange over the 5 trading days preceding the share acquisition.

The Management Board is further authorized by a resolution to use treasury shares with the approval of the Supervisory Board to settle subscription rights from employee stock-option plans in respect of members of the Management Board, Company employees and managers and employees of affiliated companies pursuant to Sections 15ff. AktG.

The Management Board is also authorized to call in the Company's treasury shares subject to approval by the Supervisory Board.

No acquisition of treasury shares was made during fiscal year 2006.

26) STOCK-BASED COMPENSATION

Management personnel in the AdLINK Group may participate in the Company's success by means of an employee stock-option plan introduced in April 2000. At the Annual Shareholders' Meeting of May 17, 2004, approval was given by resolution for replacement of the original plan approved at the Annual Shareholders' Meeting of April 4, 2000 by a new plan.

In May 2004, United Internet AG concluded a stock-option plan for a member of the Management Board of AdLINK, which allows him to purchase AdLINK shares at a pre-defined price and thus to participate in the company's success.

The employee stock-option plans operating in fiscal year 2006 were as follows:

- the option agreement of United Internet AG from May 2004
- the AdLINK employee stock-option model in accordance with the resolution passed at the Annual Shareholders' Meeting of April 2000
- the AdLINK employee stock-option model in accordance with the resolution passed at the Annual Shareholders' Meeting of May 17, 2004

a) The United Internet AG option agreement of May 2004

In fiscal year 2004 an option agreement was made on May 24, 2004 between Mr. Stéphane Cordier and United Internet AG. This included the right to acquire 400,000 shares of AdLINK Internet Media AG from the stock of United Internet AG, divided into 4 options of 100,000 shares each. The exercise price is € 1.50 and the first 25% of the shares cannot be acquired before July 1, 2004, 50% not before March 30, 2005, 75% not before March 30, 2006 and 100% not before March 30, 2007. One condition is that the options must be fully taken up and partial exercising of an option is not permissible. No time limits were set. Personnel costs of €176k (prior year: € 174k) were recorded in the past fiscal year.

In using an option-pricing model ("binomial tree") in accordance with IFRS 2, the fair value of the options amounted to € 1.36 per share. The following assumptions were made:

- Dividend yield: 0%
- Volatility of the share: 78.90%
- Expected term: 3 years
- Risk-free interest rate: 3.85%

	<u>Number</u>	<u>Mean exercise price</u>
Outstanding on December 31, 2005	<u>400,000</u>	<u></u>
Changes	<u>0</u>	<u>-</u>
Outstanding on December 31, 2006	400,000	1.5 EUR

b) The AdLINK stock-option model in accordance with a resolution passed at the Annual Shareholders' Meeting on April 4, 2000

On the basis of an authorization by the Annual Shareholders' Meeting of April 4, 2000 to issue convertible bonds, AdLINK has issued convertible bonds to employees and members of the Management Board. As of December 31, 2006 a total of € 0k (prior year: € 30k) were outstanding to AdLINK employees and € 136k (prior year: € 170k) to a member of the Management Board.

The stock-option model works as follows: every nominal amount of € 1 of a convertible bond may be converted into a no-par value registered share in AdLINK having a theoretical share in the capital stock of € 1. If converted, a cash premium to the amount of the difference between € 1 and the conversion prices must be paid. The conversion price is the cash-settlement price of the AdLINK share as recorded during trading in the electronic trading system used by Deutsche Börse AG at the time the convertible bond was issued.

A 20% portion of the Company's convertible bonds may be converted into shares in the Company no earlier than 12 months after the date of issue. Up to 40% may be converted no earlier than 24 months, up to 70% no earlier than 36 months and the whole amount no earlier than 48 months after they were issued.

In the past fiscal year personnel costs for convertible bonds of this plan amounted to € 23k (prior year: € 26k).

c) The AdLINK employee stock-option model in accordance with the resolution passed at the Annual Shareholders' Meeting on May 17, 2004

On the basis of an authorization of the Annual Shareholders' Meeting of May 17, 2004, convertible bonds were issued for the first time in fiscal year 2005. Following a resolution of the Supervisory Board, a convertible bond amounting to € 40k was issued to the Management Board member Marc Stilke on April 8, 2005. Moreover, in accordance with a resolution passed by the Management Board on May 23, 2005,

with the approval of the Supervisory Board, convertible bonds amounting to € 46k were issued to employees of the Company and of subsidiaries of the Company, as well as to executive body members of subsidiaries of the Company. As of December 31, 2006 a total of € 24 (prior year: € 36k) was outstanding to AdLINK employees and € 40k (prior year: € 40k) to members of the Management Board.

The stock-option model works as follows: every nominal amount of € 1 of a partially convertible bond can be exchanged for 10 no-par shares having an accounting share in the capital stock of € 1 each. If the conversion option is exercised, an additional cash payment has to be made in the amount by which the conversion price exceeds one tenth of the par value of the convertible bond. The conversion price corresponds to the arithmetic mean of the share price of AdLINK Internet Media AG in the last five trading days before the convertible bonds are issued, plus a premium of 20 %.

Up to 25 % of the Company's convertible bonds may be converted at the earliest 24 months after the date of issue; up to 50 % at the earliest 36 months after the date of issue. A total of up to 75 % may be exercised at the earliest 48 months after the date of issue; the full amount may be exercised at the earliest 60 months after the date of issue of the convertible bonds.

In the past fiscal year, personnel expenses for convertible bonds from this program amounted to € 204k (prior year: € 155k).

d) Summary of the changes in the AdLINK stock-option plans

The changes in the individual tranches of the AdLINK plan are set out in the following table:

	Number of options	Mean exer- cise price
Outstanding on December 31, 2004	331,870	2.28
Issue	-	-
Of which the 5 th tranche*	400,000	3.24
Of which the 6 th tranche*	459,000	3.60
Exercise	-	-
Of which the 2 nd tranche	-11,000	1.84
Of which the 3 rd tranche	-35,365	1.28
Return / expiry		
Of which the 1 st tranche	-68,000	4.96
Of which the 2 nd tranche	-6,000	1.84
Of which the 3 rd tranche	-11,500	1.28
Of which the 6 th tranche*	<u>-100,000</u>	<u>3.60</u>
Outstanding on December 31, 2005	959,005	3.04
Exercise	-	-
Of which the 3 rd tranche	-28,955	1.28
Of which the 4 th tranche	-34,000	1.71
Return / expiry		
Of which the 3 rd tranche	-1,050	1.28
Of which the 6 th tranche*	<u>-117,000</u>	<u>3.60</u>
Outstanding on December 31, 2006	778,000	3.08
		Available for conversion on December 31, 2006
Of which the 4 th tranche	136,000	34,000
Of which the 5 th tranche	400,000	-
Of which the 6 th tranche*	242,000	-
Mean weighted residual term (in months)		
residual term (in months)	24	

*In these tranches, the nominal value of € 1 corresponds to a conversion right for 10 shares.

The following assumptions were made to calculate the fair value of the options associated with the conversion rights of the AdLINK shares which were issued on January 2, 2004 ("**4th tranche**"), the result being € 1.23 per share.

- Dividend yield: 0%
- Volatility of the AdLINK share: 88.0%
- Expected term: 4 years
- Risk-free interest: 3.85%

The following assumptions were made to calculate the fair value of the options associated with the conversion rights of the AdLINK shares which were approved on April 8, 2005 ("**5th tranche**"), the result being € 0.91 per share.

- Dividend yield: 0%
- Volatility of the AdLINK share: 68.0%
- Expected term: 5 years
- Risk-free interest: 3.50%

The following assumptions were made to calculate the fair value of the options associated with the conversion rights of the AdLINK shares which were approved on May 23, 2005 ("**6th tranche**"), the result being € 1.34 per share.

- Dividend yield: 0%
- Volatility of the AdLINK share: 68.0%
- Expected term: 5 years
- Risk-free interest: 3.50%

27) CAPITAL RESERVES

The development of capital reserves is shown in the following summary:

	2006 k€	2005 k€
Capital reserves at the beginning of the fiscal year	62,047	59,573
Addition from stock-option plans	303	355
Increase in capital reserves from the conversion of convertible bonds	32	19
Compensation payment United Internet AG for utilized trade tax losses from 1999/2000	0	2,100
Subsequent reduction of IPO costs due to reimbursement of input sales tax	368	0
Capital reserves at December 31	<u>62,750</u>	<u>62,047</u>

During the course of the IPO in 2001, transaction costs of € 7,176k (prior year: € 7,544k) were netted with capital reserves. The reduction is due to the subsequent recognition of the deductibility of input sales tax on IPO costs.

28) MINORITY INTERESTS

Due to the purchase of further shares in Sedo Germany and CibleClick Holding (see explanation note 4), minority interests developed as follows:

in k€

Opening amount on Jan. 1, 2006	<u>4,117</u>
Proportional net income	4,302
Acquired minority interests	-4,113
Closing amount on Dec. 31, 2006	<u>4,306</u>

29) DEFERRED TAX LIABILITIES

Resulting from the identification of intangible assets as part of the purchase price allocation pursuant to IFRS 3, deferred tax liabilities are recognized as a balancing item for varying depreciation allowances under tax law and company law. The tax rates of the respective company affected were applied. The reversal of deferred tax liabilities corresponds to the amortization of respective intangible assets. This item changed as follows:

in k€

Opening amount on Jan. 1, 2005	<u>0</u>
Additions from initial consolidation	3,202
Reversal due to amortization 2005	-326
Closing amount on Dec. 31, 2005	<u>2,876</u>
Reversal due to amortization 2006	-671
Closing amount on Dec. 31, 2006	<u>2,205</u>

30) CONVERTIBLE BONDS

The maturity status of the outstanding convertible bonds after the time of the first conversion is as follows

	2006	2005
	<u>k€</u>	<u>k€</u>
2006	-	98
2007	101	70
2008	67	70
2009	16	19
2010	<u>16</u>	<u>19</u>
Total	<u>200</u>	<u>276</u>

31) NON-CURRENT LIABILITIES TO AFFILIATED COMPANIES

The conclusion of a new short-term credit line agreement with United Internet AG on December 22, 2006 (see explanations note 5)b) replaced the former long-term credit lines. As a consequence, the amount drawn as of the balance sheet date is classified as a current liability (see note 35).

32) NON-CURRENT LIABILITIES TO MINORITY INTERESTS

As part of the profit transfer agreement between AdLINK Germany and Sedo Germany, a compensation payment of € 250k was arranged for the fiscal years 2007 to 2011. The amounts are payable within three months after year-end of each respective fiscal year. In accordance with IFRS, the compensation payments were carried at discounted rates in fiscal year 2006. The expense charged in the period under review amounted to € 1,082k.

33) TRADE ACCOUNTS PAYABLE

The year-on-year rise in trade accounts payable resulted exclusively from increased business volume.

All liabilities are due in fiscal year 2007. The same applies to all following explanatory notes unless explicitly stated otherwise.

34) LIABILITIES TO ASSOCIATED COMPANIES

Of the total amount, € 52k (prior year: € 74k) relates to liabilities due to AdLINK Switzerland and € 22k to AdLINK Austria.

35) LIABILITIES TO AFFILIATED COMPANIES

An amount of € 47,347k concerns liabilities due United Internet AG from the use of a short-term credit line. Due to the rearrangement of the contractual relationship (see note 5)b) credit liabilities are now classified as current. In the previous year, the amount was carried as non-current liabilities to affiliated companies (see note 31).

The increase in other liabilities to United Internet AG results from open interest payments amounting to € 822k (prior year: € 386k) as a result of partial use of credit lines in the course of fiscal year 2006. The remaining liabilities to affiliated companies result from operating transactions with companies of the United Internet Group (e.g. rental costs, IT services).

36) TAX ACCRUALS

Individual tax accruals are as follows:

	2006	2005
	k€	k€
Germany	3,817	3,291
France	491	430
USA	123	772
The Netherlands	93	54
Italy	50	23
	<u>4,574</u>	<u>4,570</u>

37) OTHER SHORT-TERM LIABILITIES

In the previous year, the residual purchase price obligation referred to that amount of the preliminary price for the acquisition of 71.46% of CibleClick Holding not yet settled as of December 31, 2005. The item "Other" includes a number of various items (vehicle costs, marketing services, telephone etc.). The rise is due to increased business volume.

	2006	2005
	k€	k€
Liabilities to the German tax office (sales tax, income taxes from wages and salaries, etc.)	1,539	2,053
Outstanding salaries (bonuses)	939	800
Social security	700	686
Outstanding vacation days / other personnel expenses	649	539
Consultation (auditing fees, legal advice etc.)	487	358
Liabilities to employees	177	54
Residual purchase price obligation	0	7,092
Closing / selling costs	0	27
Others	1,650	633
	<u>6,142</u>	<u>12,242</u>

38) ACCRUALS

As a consequence of the liquidation of the 4 Irish companies, the accrual amounting to € 163k was reversed, as the risks covered are now classified as unlikely.

The accrual formed in fiscal year 2005 for restructuring costs pursuant to the planned closure of AdLINK Denmark amounting to € 154k were used according to schedule.

39) DEFERRED INCOME

A significant part of the deferred income of € 467k (prior year: € 922k) resulted, as in the previous year, from services which have already been invoiced but which have not yet been completed or fully completed.

40) LIABILITIES TO BANKS

Short-term bank liabilities consist mainly of the use of a credit line with West LB AG amounting to € 15 million. The loan was made on a call money basis at an interest rate of 4.33%.

As of the balance sheet date, the Company had access to the following unused credit lines:

Open credit lines as of December 31, 2006	in € Million
WestLB AG (until May 9, 2007)	25.0
Dresdner Bank AG (until further notice)	15.0
Dresdner Bank AG (until November 22, 2009)	15.0
United Internet AG (until January 30, 2007)	17.7
Total:	72.7

41) SEGMENT REPORTING

Primary segment reporting

As in the previous year, the primary reporting format is based on geographical considerations, as the risks and income of the Company's business activities are influenced mainly by its activity in various geographical markets or countries. The geographical segments were created as follows:

- Germany
- Euroland: Italy, Spain, France, Belgium, The Netherlands,
- Non-Euroland: Sweden, Denmark, USA, UK

The assets of the Germany segment do not include shares in subsidiaries of AdLINK AG.

The results of associated companies concern the investments in AdLINK Switzerland and AdLINK Austria. These were allocated to the Non-Euroland and Euroland segments.

Secondary segment reporting

As in the previous year, secondary segment reporting was made according to business activity. As the individual divisions AdLINK Media, Affiliate Marketing and Domain Marketing display different customer, technology and revenue structures, they were summarized accordingly. The AdLINK Media segment comprises the activities of AdLINK companies, the Affiliate Marketing segment those of affilinet GmbH and its subsidiaries and the Domain Marketing segment those of Sedo GmbH and its subsidiaries. Please refer to note 3d) for further details. The revenue of net:dialogs was included in the consolidation column.

FY 2006 in €k	AdLINK Media	Affiliate Marketing	Domain Marketing	Consolidation/ not attributable	Total AdLINK Group
Non-group revenue	68,604	67,044	41,797	27	
Inter-segment revenue	135	257	51	-443	
Segment revenue	68,739	67,301	41,848	-416	177,472
Operating segment assets	31,589	17,085	27,720	-19,200	57,194
Goodwill	8,155	32,663	42,193		83,011
Shares in associated companies	3,012	0	0		3,012
Segment assets	42,756	49,748	69,913	-19,200	143,217
Deferred tax assets					8,045
Assets					151,262
Segment investments	831	532	307	105	1,775
Segment depreciation	347	1,410	893	2	2,652

The segment assets of the Media segment do not contain shares in subsidiaries of AdLINK AG.

The comparative figures for the previous year are as follows:

FY 2006 in €k	AdLINK Media	Affiliate Marketing	Domain Marketing	Consolidation/ not attributable	Total AdLINK
Non-group revenue	52,924	28,012	17,322

Segment depreciaton	332	468	653		1,453
Non-scheduled depreciation	1,679	0	0		1,679

42) RISK MANAGEMENT

a) Contingency risks

Through the use of appropriate control procedures and instructions based upon experience, the group ensures that services are only provided to those customers who in the past have proved themselves to be creditworthy or that in the case of new customers the risk is kept within reasonable bounds. Furthermore debt management is organized in such a way that some risks can be identified at an early stage and appropriate counter-measures taken.

b) Change in interest rates

As of the balance sheet date, the Group's net borrowing amounted to € 56.4 million. All available credit lines are based on variable interest rates. Ceterus paribus, the risk of change in interest rates thus corresponds to € 560k per 1% change in the interest rate.

c) Liquidity risks

As a member of the United Internet AG group and its positive business development, the Group currently holds sufficient cash and cash equivalents to be able to meet its payment obligations.

d) Exchange rate risks

The group operates in the Euro region and via its independent subsidiaries in Sweden and Great Britain and the USA. The annual financial statements contain no financial liabilities in foreign currencies. Thus, exchange rate risks only exist partly in respect of internal financing arrangements (esp. England) and partly from the operating activities of Sedo Germany and Sedo USA. Transactions of both companies are partly in US dollars.

e) Guaranteed fees

In order to retain or attract major website operators in the AdLINK Media segment, the Group was and is obliged to some extent to pay fees of a pre-defined amount. As part of these agreements, there is a risk for the Group that the revenues generated will not be sufficient to cover the guaranteed fees.

43) AUDITORS' FEES

In fiscal year 2006, auditing fees totaling € 191k were expensed in the financial statements of AdLINK AG. These include auditing fees (€ 113k), tax consultancy services (€ 49k) and other services (€ 29k). Fees of € 94k were paid to associated companies of the auditing firm.

Auditing fees of around € 221k were paid to the auditing firm and its associated companies for the auditing of annual financial statements 2006 of subsidiaries of AdLINK AG. Other fees accounted for approx. € 93k.

44) OTHER FINANCIAL COMMITMENTS AND CONTINGENCIES

a) Rent and other services

The main obligations of the AdLINK Group refer to three areas: (1) the leasing of software, especially AdServing services, (2) leases for offices at the Group's various locations and (3) leasing obligations for a part of the vehicle fleet.

In the fiscal year 2002, AdLINK signed an agreement for the provision of AdServing services with DoubleClick Inc.. The agreement has a term of ten years. The terms and conditions of the agreement were adjusted in December 2006 for the fiscal years 2007 and 2008. The financial liability for the coming 2 years amounts to € 2,3404k for each year. Comparable levels of expenditure are anticipated in the fol-

lowing years up to January 28, 2012. This has been assumed and included correspondingly in future obligations.

As of December 31, 2006, the future obligations from leases and other service agreements came to € 16,977k as shown below:

Residual terms of other leasing agreements / €k					
<u>Total</u>	<u><1 year</u>	<u>1 to 2 years</u>	<u>2 to 3 years</u>	<u>3 to 4 years</u>	<u>>4 years</u>
16,977	4,017	3,409	3,135	2,957	3,459

Non-balance sheet obligations from other agreements, leasing of office furniture and fixtures and, in particular, vehicles amounted to €591k as of December 31, 2006. All leasing agreements are operative leasing agreements.

Residual terms of leases and other service agreements / €k					
<u>Total</u>	<u><1 year</u>	<u>1 to 2 years</u>	<u>2 to 3 years</u>	<u>3 to 4 years</u>	<u>>4 years</u>

b) Contingent liabilities, other liabilities and other possible claims

The Management Board is not aware of any facts which might have a significantly adverse impact on the Company's activity, its financial circumstances or trading result.

45) OTHER LEGAL DISCLOSURES

a) Exemption pursuant to Sec. 264 (3) HGB

The following companies of AdLINK Internet Media AG make use of the exempting provisions of Sec. 264 (3) HGB and therefore refrain from disclosing their annual financial statements 2006, the auditing of the company's annual financial statements and the preparation of a management report:

AdLINK Internet Media GmbH Deutschland, Düsseldorf/Germany
affilinet GmbH, Ebersberg/Germany
Sedo GmbH, Cologne/Germany

In accordance with Sec. 325 HGB, the resolutions of the shareholders' meetings were published in the electronic Federal Gazette.

b) Group membership

As the parent company of AdLINK Internet Media AG, United Internet AG prepares consolidated annual financial statements for the largest group of companies. The HGB-based result of United Internet AG for the preceding fiscal year 2005 amounted to € 187 million and its equity according to HGB amounted to € 392 million. Please refer to the annual report of United Internet AG for further information.

c) Corporate Governance Code declaration acc. to Sec. 161 AktG

AdLINK Internet Media AG submitted the statutory declaration for 2006 pursuant to Sec. 161 AktG, which conformed with the recommendations of the "Government Commission German Corporate Governance Code", as will it in future. The declaration was made available to shareholders.

d) Open litigation

At the time of preparation of the consolidated annual financial statements, AdLINK AG was involved in a few litigation cases. These mainly refer to damage claims made by third parties, which the Company feels are not justified. The outcome of these legal cases is open and it cannot be ruled out that there will be consequences for the following fiscal year.

AdLINKGROUP

**AdLINK Internet Media AG,
Montabaur**

**Management Report
and
Group Management Report**

for Fiscal Year 2006

Management Report

The online advertising market enjoyed widespread growth again in 2006. JupiterResearch calculates growth of 28% to € 5 billion for the European advertising market. Strong growth of 59% to € 1.65 billion is also forecast by the German Digital Economy Association (Bundesverband Digitale Wirtschaft) for the German online advertising market in 2006. And the tremendous untapped potential becomes apparent if one compares online advertising's share of the total advertising pie with online usage as a proportion of total media usage: the forecast for 2006 of 7.8% of the advertising market (without posters) is only about half the online share of daily media consumption of 14.6%.

ECONOMIC ENVIRONMENT

Following strong growth in the first half of 2006, the German Digital Economy Association was forced to make a strong upward correction to its revenue forecast for the German online advertising market in 2006. Classic online advertising easily outstripped the ambitious forecasts for the segment with gross growth of 69% in the first six months. The forecast for the year as a whole was thus raised to € 785 million (+47%) – and corrected again in January 2007 to € 903.1 million. The forecast for the affiliate network segment (+48%) was confirmed after reviewing the first six months. The year's conservative, yet still quite exceptional, growth forecast of 80% for the search word marketing segment was upheld. In total, the three segments mentioned will achieve revenues of € 1.65 billion in 2006. This figure does not include sales income from online classified ads, especially for cars, real estate and jobs.

In the field of search word marketing – the fastest growing segment at plus 80% – advertising customers are allocated special areas on the hit pages of search engines. The advertising customer only advertises if an internet user searches for a specified term. In a fully automatic auction process, advertising customers bid for the top advertising positions on the hit pages. Payment is made for each click on the – comparatively short – text ads.

Affiliate networks (+48%) offer advertising customers the possibility to place their ads on a wide variety – often hundreds – of web pages with lower reach figures (so-called affiliates). This form of online advertising, often associated with the term “long-tail

marketing”, is invoiced almost exclusively on the basis of sales generated by clicks on the respective online advertising. For the user, affiliate marketing often looks no different to classic online advertising – so-called display ads are used in both cases, i.e. horizontal banner ads in the upper side, vertical skyscrapers mostly on the right, or rectangles in the middle surrounded by editorial content.

Classic online advertising (+47%) also includes sponsoring and microsites, as well as sophisticated Flash layers, often with multimedia elements and superimposed over the advertising area.

Online advertising is also being used increasingly by companies who did not hitherto advertise online: around 5.5% of advertising spending in the first half of 2006 was made by companies investing for the first time in online advertising. The highest proportion of new customers came from the service (35%) and finance (22%) sectors. Closer examination of the statistics reveals that the biggest online advertiser in the first half of 2006 was a discount grocery store. This is an absolute first and illustrates how online advertising is becoming increasingly attractive for companies not previously regarded as having an affinity for online business. According to Nielsen Media Research, the online medium is used mainly in connection with other media: 37% of advertisers use the medium in this way (together with other media), 35% use only online communication and 24% advertise exclusively in online and print media.

Experts regard the rapid spread of broadband connections, such as DSL, the growing intensity of usage and greater acceptance of e-commerce as the main reasons for this dynamic growth. The internet is now fully accepted as a market place and information medium. Companies are therefore more willing to devote an ever larger proportion of their advertising budgets to online activities. In addition to direct product sales, attention is now turning to the field of branding. The internet is being used increasingly to build brands. Furthermore, the effectiveness of online advertising is constantly improving, thanks to the development of optimization and targeting technologies as well as the introduction of improved formats. The ease with which advertising success can be measured on the internet and the resulting possibilities for optimization mean that online advertising has tremendous potential

compared with classic advertising media.

Economic growth provides further momentum to expansion of online advertising

2006 was a good year for the global economy, with growth in the USA, Europe and Germany. According to estimates of the International Monetary Fund (IMF), the global economy grew by 5.1% in 2006. The IMF forecasts growth of over 2.5% for the Euro zone. The Federal Statistics Office calculates that the German economy grew by 2.5% in 2006 – the highest rate since 2000.

Despite double-digit growth in exports, the major growth impetus came from domestic demand in the past year. This growth was led by companies, which invested 7.3% more in capital goods than in the previous year and thus reached levels not seen since German reunification. Consumer spending was also up with growth of 0.6%. According to calculations of the International Labor Organization, the number of unemployed fell by 460,000 to 3.4 million as a consequence of this economic upturn.

Favorable environment for AdLINK Internet Media AG

Such economic conditions will favor further strong growth of our sector and of our company. Even our direct market environment looks extremely promising: internet acceptance is now strong among those target groups who were not originally open to new technology, and the spread of broadband connections and increasing use of flat rates have improved the quality and intensity of usage even more. From the advertisers' point of view, the more people using the internet and the more time they spend on it, the more attractive the medium becomes. And the better the technology, the more interesting, varied and effective the formats will be – enabling advertisers to reach their target groups as efficiently as possible. These growing user figures, the spread of broadband and favorable forecasts, for e-business for example, have all positively impacted the online advertising industry and will continue to do so in future.

BUSINESS DEVELOPMENT

Strong growth and expansion of our business model

2006 was a successful year for our business and a year of strategic expansion for

our business fields. The market grew strongly, and yet we still outpaced it with growth of 81% in sales revenues. Pre-tax earnings were up 419% and we achieved an EBT margin of 10.5%.

We have realigned our business fields and given them a wider strategic base: in early 2006 we implemented a new concept for our traditional AdLINK MEDIA (Display Advertising) segment, which aims to enhance success with our most important business partners – major websites and advertisers. We now offer our customers two different advertising networks: AdLINK SELECT and AdLINK TARGET. AdLINK SELECT is a premium portfolio of hand-picked, brand-name websites with leading reach statistics and high-quality, original content. All of these websites feature our new and innovative AdLINK Brandsense advertising formats, with which our customers can run simple, high-reach and highly effective brand campaigns; both in Germany and throughout Europe. This is the first time that our advertising customers have been able to combine such European reach with high-quality content environments in a single booking. AdLINK TARGET is a network which enables our customers to reach some 70 million internet users around Europe with a variety of targeting options: topic-based, socio-demographic, regional or behavior-oriented.

At the same time, the integration of Sedo, affilinet and CibleClick in the fast-growth segments of online advertising, such as domain and affiliate marketing, has given us a broader base and enables us to offer all major online advertising and marketing services from a single source.

Our philosophy has remained unchanged though: the customer – whether website owner or advertiser – is at the center of everything we do. We help website owners to maximize their revenues from online marketing and advertisers to get the most for their budgets.

Important developments and events during the fiscal year included:

- Strong increase in sales and earnings

In the period under review, we increased sales by 81% over the previous year to € 177.5 million. Earnings before tax grew by 419% to reach € 18.7 million (prior year: € 3.6 million).

- Increased stake in our subsidiaries

After raising its stake in French affiliate marketer CibleClick to 100% on October 20, 2006 (for € 3.6 million from company funds), AdLINK raised its shareholding in Sedo GmbH, Cologne, on November 20, 2006, from 52.14% to 75.94%. The purchase price of € 34.5 million was financed through borrowing. Sedo's founders will remain significant shareholders and continue to manage the company. In addition to the acquisition contracts, a profit transfer agreement between AdLINK and Sedo was also concluded, with effect from January 1, 2007.

- net:dialogs launched as an independent full-service offer

In late 2006 we launched net:dialogs GmbH on the advertising market as a full-service agency specializing in direct and dialogue-based online marketing. net:dialogs aims to focus on the design and implementation of complete communication campaigns for effective and measurable contact with specified target groups in all digital media. The services and solutions for media agencies range from online brand advertising, to address and profile data generation, online questionnaires, digital vouchers, opt-in e-mail programs and integrated customer relationship systems (eCRM). Using specialized, web-based net:dialogs software, customers also have the possibility to use the entire international marketing network of the AdLINK Group.

- New type of sales channel for affiliate marketing with contextual targeting

In September 2006 we unveiled "affilimatch" – a new type of advertising service which benefits both advertisers and our publishers. With the aid of affilimatch, we are able to automatically place advertisers' products on those websites within the affiliate network which are best suited to the topic. This contextual targeting tool displays up-to-date and context-related products on the pages of our publishers. This happens automatically with "affilimatch", unlike classic affiliate marketing where publishers have to choose individual products themselves.

- Domain parking: SedoPro voted best parking program

In November 2006 our leading position in domain marketing was underlined at the T.R.A.F.F.I.C. conference in Miami, USA. Our "SedoPro" product was voted best

domain parking program. It offers professional domain owners the best possibility to earn money with unused domains without any effort. SedoPro is specially designed for domain owners with a top-quality domain portfolio. The principle is both simple and impressive: Sedo displays advertising related to the domain name and the domain owners receive a share of the advertising income generated. Registering for domain parking is free of charge for our customers. The attraction of the domain exchange is also reflected by the increasing number of domain transactions: for example, Sedo brokered the biggest sale of its five-year history with the internet address "vodka.com" for \$ 3 million.

AdLINK MEDIA is Europe's leading independent online network

The backbone of our business is an advertising network of selected websites offering tremendous reach. In Display Marketing (without cooperation partners) this network enables us to reach over 68 million users in all relevant European markets and to market some 6.8 billion page impressions per month. Space on these pages is booked by domestic and international advertising customers, who use the network for branding activities or the direct sale of products (Display Marketing).

With Sedo.com we run the world's leading domain trading platform

Sedo operates the global domain trading platform sedo.com which currently offers some 6.6 million domains. Sedo is thus the global market leader in the trading of "second-hand" internet addresses. Sedo also enables domain owners to "park" their unused domains, i.e. these addresses are marketed by Sedo to advertisers on behalf of their owners. Sedo participates in any revenues generated from marketing the domains. Domain parking is equally interesting for domain owners and advertisers, as the automated process offers domain owners added value in the form of additional advertising revenue, while advertisers only pay for contacts actually established. Sedo serves customers in over 200 countries from its facilities in Germany and the USA.

Leading German affiliate network

A quality network for affiliate program operators and website owners to market products online is the basis of affilinet's business. affilinet boasts a network of over 400,000 websites, more than 1,200 affiliate programs, over 4.9 billion page

impressions per month, high service quality and a flexible and user-friendly product. In Germany, affilinet is the leader in its segment. We are also active in affiliate marketing in the UK and France, thus covering Europe's most important nations for marketing and e-commerce.

International presence established

With its AdLINK, Sedo and affilinet brands, the AdLINK Group operates its own offices in eight European nations: in Belgium, Germany, France, the UK, Italy, the Netherlands, Spain and Sweden. In addition, Sedo is represented in the USA by its own office. Via joint ventures or licensed companies, we are also active in Switzerland, Austria and Norway. Even in those countries where we have no local offices, our cooperation partners provide customers with an extensive network for brand advertising, success-based direct marketing and e-mail marketing, e.g. in Turkey, Asia and South America. Due to the business model of domain marketing, it is not absolutely necessary to operate our own offices in every market. Sedo already serves customers in over 200 countries via native speakers operating from our two facilities in Germany and the USA. In the third quarter, our technical platform was made IDN-compliant (IDN = Internationalized Domain Names) so that Asian domains can now be easily processed. For our customers, this strong international presence offers the advantage of being able to plan, book and control their international campaigns centrally via a single contact partner. Companies such as Panasonic, Beiersdorf, BASF, Nokia, DELL and Hewlett Packard use the AdLINK Group's networks for their online campaigns – due in part to the international character of the networks.

Further improvement in key indicators

Our healthy financial figures result to some extent from the positive development of the AdLINK Group's reach. The monthly page impressions of our AdLINK Media network, for example, increased from 5.6 billion in 2005 to 6.8 billion in the period under review. In total, the advertising network registers some 68.9 million unique visitors per month throughout Europe. The number of advertising customers grew from 3,970 in 2005 to 4,300 in 2006. The Domain Marketing segment also made encouraging progress: the number of domains on offer climbed from 3 million at year-end 2005 to 6.6 million at the close of 2006. Of this total, 2.66 million domains (prior

year: 780,000) were available for marketing. The number of registered domain vendors grew during the period under review from 350,000 to 440,000. The most important figures for Affiliate Marketing are the number of affiliated websites, the number of affiliate programs and the number of page impressions per month. All of these figures were up strongly over the previous year: the number of affiliated websites grew from 292,000 to 404,000, affiliate programs were up from 774 to 1,244 and monthly page impressions increased from 3.3 billion to around 4.9 billion.

Employees

Success made possible by skilled and motivated staff

On December 31, 2006 headcount amounted to 400 (prior year: 267). Of this total, 204 were employed outside Germany (prior year: 149). The strong increase in headcount resulted in part from the international expansion of our affiliate and domain marketing segments, as well as from the dynamic growth of the Group as a whole. Personnel expenses grew by 46 % to € 22,7 million (prior year: € 15,6 million).

The success of advertising services in the online sector depends to a large extent on the skills and motivation of your employees. In order to maintain a high level of expertise among AdLINK Group staff and permanently adapt to market requirements, we attach great importance to personnel development and training activities. We therefore offer staff a variety of training and development programs, including sales techniques, team building, change management and communication.

Principles of Management Board and Supervisory Board remuneration

The Supervisory Board is responsible for determining the remuneration of Management Board members. The remuneration received by the members of the Management Board of AdLINK Internet Media AG is performance-oriented and consists of fixed and variable elements. In addition, there is a component providing long-term incentives in the form of convertible bonds. The amount of these remuneration components is regularly reviewed. The fixed component is paid monthly as a salary. The size of the variable component is dependent upon the attainment of certain fixed financial objectives identified at the beginning of the year and mainly related to the sales and earnings figures. Depending on the attainment of

targets, the Chairman of the Supervisory Board determines the variable component, which is limited to a certain maximum amount. There is no subsequent amendment of performance targets. There is no guaranteed minimum payment of the variable remuneration component. In addition to cash compensation, Management Board members received convertible bonds as a long-term incentive component.

The members of the Supervisory Board receive remuneration consisting of a fixed element and a variable component based on the company's economic success. Each ordinary member of the Supervisory Board receives a fixed amount of € 7,500 per full fiscal year. The chairman of the Supervisory Board receives twice this amount. In addition to this fixed amount, each Supervisory Board member (including the chairman) receives a variable amount based on the Company's performance. The variable amount for each member of the Supervisory Board, including the Chairman, amounts to € 250 for every cent of the IFRS-based consolidated earnings per share of AdLINK Internet Media AG, which exceeds a minimum amount of € 0.11. The minimum amount increases annually by 10%, beginning in fiscal year 2006. The variable remuneration element is limited to € 5,000 per Supervisory Board member.

RESULT OF OPERATIONS, FINANCIAL POSITION AND NET ASSETS

Sales up 81%

In its fiscal year 2006, the AdLINK Group achieved significant growth in sales and earnings. The Group profited from the premium strategy launched in previous years in its Display Marketing segment as well as from a widening of its business model with the addition of the Affiliate and Domain Marketing segments. This strong growth was accompanied by a positive market development, based mainly on two effects: firstly, the volume of the European advertising market as a whole grew, as did the proportion of spending on online advertising. This represents a continuation of the trend that online advertising's share of total spending reflects the strong increase in internet usage. At the same time, improved targeting technologies improved efficiency and greater use of performance-based products enhanced the acceptance of online advertising. We believe these trends will continue in the coming years. The AdLINK Group therefore achieved strong organic growth in 2006, which was

bolstered further by the acquisition of CibleClick in late 2005 and the companies Sedo and affilinet, which were only consolidated in 2005 from April 1 onward. Sales revenues grew by 80.6% from € 98.3 million in 2005 to € 177.5 million in 2006. Based on pro-forma sales revenues of € 122.3 million for 2005 (with full inclusion of Sedo and affilinet, acquired in April 2005, and CibleClick, acquired in late 2005), there was organic sales growth of 45%. In the AdLINK Media segment, sales grew by 27%, from € 52.9 million to € 67,0 million, in the Affiliate Marketing segment by 144%, from € 28.1 million to € 68,6 million, and in the Domain Marketing segment by 142%, from € 17.3 million to € 41.8 million. There was thus encouraging sales growth in all segments during 2006. The proportion of sales generated outside Germany amounted to 44% (2005: 49%).

In terms of sales, earnings, advertising customers and brokered websites or domains, the AdLINK Group was able to expand its strong market position. AdLINK is thus one of Europe's leading independent online marketers and offers an increasingly full range of online advertising possibilities for the European market.

Pre-tax earnings up to € 18.7 million

There was a year-on-year increase in gross margin to 25.6% (23.7%). This improvement resulted mainly from a more favorable sales mix. There was a proportionately stronger increase in higher margin sales of performance-based invoicing models in the AdLINK Media and Domain Marketing segments. Economies of scale achieved by higher sales also had a positive impact on earnings. Compared with the increase in revenues, sales expenses grew much more modestly. They amounted to € 12.9 million (prior year: € 8.6 million), corresponding to 7.3% of sales revenues (prior year: 8.8%). The same applies to general and administrative expenses, which fell from 9.7% of sales in 2005 to 6.4% in the period under review .

Earnings before taxes (EBT) rose strongly: they increased from € 3.6 million in the previous year to € 18.7 million in the period under review. This corresponds to a sales margin of 10.5%, compared with 3.7% in 2005. Undiluted earnings per share (EPS) grew strongly from € 0.04 in 2005 to an undiluted figure of € 0.47 in 2006 and thus reflects the strong growth of the entire AdLINK Group. EPS was influenced in 2006 by the capitalization of tax loss carryforwards amounting to € 4.5 million. This

was carried out in 2006 due to the strong increase in earnings and the profit transfer agreements existing with domestic subsidiaries. The capitalization produced a positive one-off effect on EPS of € 0.18. This was partly compensated by a negative one-off effect from a profit transfer agreement concluded between AdLINK and Sedo in connection with the increase in shareholding. Effective from January 1, 2007, the contract guarantees Sedo's minority shareholders fixed annual dividends for the fiscal years 2007 to 2011. According to IFRS accounting, these guaranteed dividends for 2007 and the following years must be accounted for in 2006 and thus reduce EBT by a total of € 1.2 million. Earnings of the period under review also contain amortization of assets capitalized during company acquisitions amounting to € 1.8 million (prior year: € 0.8 million). The positive contribution to earnings from associated companies amounting to € 1.3 million (prior year: € 0.5 million) originates mainly from our 50% interest in AdLINK Switzerland, a joint venture with the Goldbach Media Group.

Total assets reach € 151.3 million

The Company's net asset position was strongly influenced in 2006 by increased shareholdings in our existing subsidiaries Sedo and CibleClick. In the 4th quarter of 2006, we increased our share in Sedo GmbH from 52.14% to 75,94% for a purchase price of € 34.5 million. In addition, we raised our stake in CibleClick Performance S.A. from 71.46% to 100%, paying a total of € 3.5 million. These investments have strengthened our position in the fast growing Affiliate and Domain Marketing segments. The transactions were paid for mainly from our own funds, as well as by using credit lines with a commercial bank and finance provided by our majority shareholder United Internet AG at normal market conditions. As of December 31, 2006, liabilities to affiliated companies amounted to € 48.3 million (prior year: € 33.0 million) and liabilities to banks totaled € 15.0 million (prior year: € 0). On the balance sheet date, cash and cash equivalents amounted to € 5.9 million (prior year: € 10.8 million).

Due to expansion and the planned future development of our business, we invested more heavily in property, plant and equipment and intangible assets during 2006 with capital expenditures of € 1.8 million, compared with € 1.1 million in the previous year (+64%). The growth in business volume and our increased shareholdings resulted in

a rise in total assets, from € 106.6 million in the previous year to € 151.3 million. Due to the acquisitions, the proportion of total assets represented by goodwill grew to 54.9% or € 83.0 million (prior year: 46% or € 48.7 million). In fiscal year 2006, the equity capital of AdLINK Internet Media AG grew to € 38.2 million as of the balance sheet date, compared with € 25.4 million in the previous year. The Group's equity ratio rose to 25.2% (prior year: 23.8%).

SALES AND EARNINGS OF THE PARENT COMPANY

In the period under review, sales revenues of the parent company AdLINK Internet Media AG amounted to € 17.0 million (prior year: €11.7 million) and thus grew in line with sales of the Group as a whole. Sales consist mainly of revenues from international campaigns which are centrally billed by AdLINK Internet Media AG, as well as charges and costs allocated to operating subsidiaries. The main influencing factors for the development of sales and earnings of AdLINK Internet Media AG were therefore marketing of international campaigns and the continuation of service agreements with the Group's subsidiaries. Costs for administrative services provided by AdLINK Internet Media AG in the field of finance, legal affairs, human resources, marketing, management, IT, DART system administration/campaign management and product development are allocated to the respective subsidiaries. In 2006, AdLINK Internet Media AG received revenues from allocated direct costs (e.g. DART costs, IT services, travel expenses) amounting to €10,510k (prior year: € 7,769k) and from allocated overheads amounting to € 3,783k (prior year: € 2,865k). In addition, sales revenues from third parties totaled € 2,718k (prior year: € 1,037k).

Other operating income amounting to € 3.4 million (prior year: € 0.7 million) resulted mainly from reversals of impairment losses on investments made in previous years. Due to the positive operating development of certain subsidiaries, the original values were reinstated in 2006. Income from investments of € 3.96 million (prior year: € 1.3 million) resulted mainly from a profit transfer agreement and dividends from subsidiaries and joint ventures. Earnings before taxes (EBT) of AdLINK Internet Media AG amounted to € 5.9 million and were thus up strongly on the previous year (€ -5.1 million).

The balance sheet total rose as a consequence of debt-financed shareholding purchases to € 110.7 million (prior year: € 60.0 million), whereby investments in affiliated companies increased to € 44.8 million (prior year: € 41.9 million) and loans to affiliated companies grew to € 52.1 million (prior year: € 11.5 million). Our net indebtedness to United Internet AG from general loan agreements granted amounted to € 47.4 million (prior year: € 32.6 million) as of December 31, 2006, while bank loans totaled € 15.0 million (prior year: € 0). As of the balance sheet date, cash and cash equivalents of AdLINK Internet Media AG amounted to € 0.6 million.

Explanation of disclosures acc. to Secs. 289 (4), 315 (4) German Commercial Code (HGB)

The Company's capital stock amounts to € 25,914,900 divided into 25,914,900 no-par value shares. There are no other share categories. As far as the Company is informed, United Internet AG, Montabaur, held 20,750,477 shares or 80.27% of total shares in AdLINK Internet Media AG as of December 31, 2006 .

The Management Board is entitled to issue new shares under the following circumstances:

1) The Management Board is authorized, subject to approval by the Company's Supervisory Board, to increase the Company's capital stock on one or more occasions before May 17, 2010 by a total of € 12,900,000 by issuing new no-par shares for cash or non-cash contributions (Authorized Capital 2005).

2) Capital stock may be increased conditionally by up to € 835,100.00, divided into up to 835,100 no-par value shares. The conditional increase in capital is earmarked for conversion options to be granted to the bearers of convertible bonds, the issue of which was authorized by the Annual Shareholders' Meeting of April 4, 2000. It will only be implemented to the extent that these conversion options are exercised. The shares will participate in profits from the beginning of the fiscal year in which they are created by exercise of the conversion option. With regard to the members of the Management Board, the Supervisory Board is authorized and, with regard to the other persons entitled to convertible bonds, the Company's Management Board is authorized to define further details of the conditional capital increase and the

execution thereof.

3) Capital stock may be increased conditionally by up to € 8,000.00, divided into up to 8,000 no-par value shares. The conditional increase in capital is earmarked for conversion options to be granted to the bearers of convertible bonds, the issue of which was authorized by the Annual Shareholders' Meeting of April 4, 2000. It will only be implemented to the extent that these conversion options are exercised. The shares will participate in profits from the beginning of the fiscal year in which they are created by exercise of the conversion option.

4) Capital stock may be increased conditionally by up to € 1,250,000.00, divided into up to 1,250,000 no-par value shares. The conditional increase in capital is earmarked for conversion options to be granted to the bearers of convertible bonds. The Annual Shareholders' Meeting of May 17, 2004, authorized the Management Board or Supervisory Board to issue such convertible bonds. It will only be implemented to the extent that these conversion options are exercised and providing the Company does not service the conversion options from its stock of treasury shares. The shares will participate in profits from the beginning of the fiscal year in which they are created by exercise of the conversion option. With regard to the members of the Management Board, the Supervisory Board is authorized and, with regard to the other persons entitled to convertible bonds, the Company's Management Board is authorized to define further details of the conditional capital increase and the execution thereof.

5) Capital stock may be increased conditionally by up to € 10,000,000.00, divided into up to 10,000,000 no-par value shares. The conditional capital increase is earmarked for shares to be granted to bearers or holders of warrant or convertible bonds, which the Annual Shareholders' Meeting of May 17, 2005 authorized the Company or a subordinated Group company to issue up to May 16, 2010, providing the issue is in return for cash and the warrant or convertible bonds are not serviced from the Company's stock of treasury shares or approved capital. It will only be implemented to the extent that the warrant or conversion options of the aforementioned bonds are exercised or conversion obligations from such bonds are fulfilled and providing the warrant or convertible bonds are not serviced from the

Company's stock of treasury shares or approved capital. The shares will participate in profits from the beginning of the fiscal year in which they are created by exercise of the warrant or conversion option. The Company's Management Board is authorized to define further details of the conditional capital increase and the execution thereof.

The Supervisory Board is authorized to reformulate Sec. 5 of the Company's articles according to the respective exercise of conversion rights and according to the respective use of conditional capital.

In accordance with a resolution passed by the Annual Shareholders' Meeting on June 12, 2006 the Management Board is also authorized to acquire treasury shares not exceeding 10% of its capital stock up to December 11, 2007.

The Supervisory Board appoints and dismisses the members of the Management Board and appoints one member of the Management Board as Chairman or Speaker. The Supervisory Board is authorized to make amendments to the Company's articles insofar as they only concern formulation.

Subsequent events

There have been no further subsequent events since year-end which would have significantly altered our net assets, financial position or result of operations. In general, the positive development of fiscal year 2006 has continued up to the point of preparation of the annual financial statements.

RISK REPORT

Risk management system

The risk management system of AdLINK Internet Media AG identifies, classifies and evaluates risks according to statutory regulations. The aim of risk management is to systematically deal with potential risks as well as to promote a risk-oriented approach throughout the entire organization. This controlled approach to risks is aimed at

utilizing existing opportunities to the full and enhancing the company's success. Our risk management system not only serves to fulfill statutory regulations, but aims to raise corporate value and is thus in the general interest of our lenders and stakeholders.

In particular, the company's risk management system aims to:

- improve risk awareness and transparency;
- identify, monitor and control all major risks in an appropriate way;
- show any build-up of risk and provide reliable management information on the company's risk situation.

Work processes are to be standardized and thus carried out in a uniform manner. A risk management system has the task of providing those responsible with suitable tools for analyzing and evaluating risks. The risk management manual is to be kept and regularly updated by the risk manager.

A central risk manager for AdLINK Internet Media AG is to be given the responsibility of determining the methods and guidelines of the risk management system. He should coordinate and manage reporting on significant risks. This includes a quarterly status check of the potential risks and opportunities. A risk inventory and evaluation process is to be carried out once per year. Should the evaluation indicate the necessity for monitoring, appropriate measures to deal with the risk and monitor its development are to be undertaken and included in the quarterly report. Where necessary, the Management Board shall inform the Supervisory Board at the respective Supervisory Board meeting. Within the framework of the risk management system, an "immediate information report" serves to provide up-to-date reports on new risks and all events relevant to ad-hoc reporting. If pre-determined threshold values of the early-warning indicators are exceeded, the related circumstances and necessary countermeasures are documented.

Risks for future business development

All business activities involve a certain degree of risk. This is particularly true for companies in the internet business and active on the online advertising market. Both markets are subject to a high degree of change regarding the competitive and

general economic environment. Should any one or more of the events described below actually occur, it might result in a deterioration of our net assets, financial situation and results of operations. As a consequence, this could have an adverse effect on our share price. We regard the risks and uncertainties for our future development described below as the most significant.

Operating risks

Competition

The growing success of online advertising has also raised the intensity of competition on our markets considerably. This increased competition may arise from existing national competitors or major international corporations seeking to extend their activities to the European markets. New competitors might enter the market or advertising companies not yet active in the online segment may extend their operations to the internet. Even major portals are attempting to attract a greater share of advertising budgets. AdLINK Internet Media AG can only influence these factors to a very limited extent. Serious developments of this kind could lead to a deterioration of our net assets, financial situation and results of operations, as advertisers and website operators would be able to choose from a wide range of advertising brokers and advertising options. AdLINK Internet Media AG attempts to strengthen the ties to its customers and publishers by means of active customer management and the provision of new and innovative advertising products and services. In this way, it aims to counter these risks while strengthening its own domestic and international market position.

Product development

On the markets for online advertising, technological innovations emerge at short intervals. For example, new technical possibilities are constantly being made available by marketers to suit the requirements of internet users and integrated into products. If this technological progress is not used correspondingly by our business model to generate competitive advantages, other operators might achieve better product quality, services or processes than ours. This could weaken our competitive standing, as we would not be able to supply customers with the desired products, or at least not in the desired quality. This might also occur if a technical service provider we employ, and whose systems we use for important supplies of advertising formats,

does not implement technological innovations or only with delay. As a consequence, we might lose important advertising customers, websites and thus revenue. AdLINK Internet Media AG takes action to counter this risk by closely monitoring competitors, the relevant markets and technological developments

Inventory

A key differentiation factor for AdLINK is its portfolio of high-quality and highly frequented websites and domains which advertisers can use. Should the AdLINK Group lose many of these important websites and major domain portfolios, or not have enough high-reach advertising sites in its portfolio, it might suffer serious disadvantages and become less attractive for advertisers. Moreover, websites and domains which were previously marketed by service providers such as AdLINK, may decide to start marketing themselves. In this connection, there is a risk that certain websites do not reach their guaranteed revenue targets. This loss of revenue, with consistently high costs, may result in a deterioration of our net assets, financial situation and results of operations. AdLINK attempts to counter this risk by providing active website support, improving its service quality (e.g. central invoicing of international websites) and increasing the revenues generated by AdLINK for these websites.

Technology and software systems

AdLINK Internet Media AG uses a variety of IT systems to manage its operations, administer customer data and websites and to execute, monitor and invoice advertising campaigns. Failures or incompatibility within various systems or departments could lead to additional manual efforts, tie up capacities or lead to errors. Certain important data processing systems for the execution of online marketing procedures are not run by AdLINK Internet Media AG itself, but by external service providers. There is therefore a risk that the service provider might fail to honor the terms of the contract, without AdLINK Internet Media AG being able to take any immediate corrective measures. Such situations could endanger operating processes and thus negatively impact our net assets, financial situation and results of operations. AdLINK Internet Media AG attempts to counter this risk with experienced IT departments, various quality assurance measures and careful monitoring of its campaigns. Moreover, AdLINK Internet Media AG permanent examines in which way

internal systems could further standardized in order to improve internal processes and raise the level of customer and publisher satisfaction.

Dependency on customers/business partners

Future budgets of advertisers cannot be predicted over the long term nor can they be influenced by AdLINK Internet Media AG, as advertising budgets are often awarded for each new campaign. In the case of affilinet and Sedo, a substantial proportion of revenue is often generated with a few major business partners. Should these partners reduce or end their relations with us, this may result in a serious deterioration of our net assets, financial situation and results of operations. AdLINK Internet Media AG takes action to reduce this risk by employing experienced key account managers, maintaining close relations with these business partners and providing a convincing range of products and services.

Pressure on prices/margins

Fierce competition in the online advertising sector has also led to competition for attractive and highly frequented websites, which provide advertising space. AdLINK Internet Media AG has positioned itself as a European online specialist with a full range of innovative products and special services for its customers and websites. Due to the changing competitive situation in certain countries, AdLINK Internet Media AG might decide to react or take preemptive action by reducing prices in these countries. Such falling prices and/or margins could result in a deterioration of our net assets, financial situation and results of operations.

Financial risks

Liquidity

As of December 31, 2006, the AdLINK Group had net liabilities of € 56.4 million, consisting of liabilities to banks and United Internet AG from short-term general credit lines. Due the profitability we have achieved and our sound free cash flow, we expect to reduce net liabilities in 2007. There are risks with regard to credit lines, which were mostly arranged for short periods and can be terminated at short notice. Should existing credit lines be terminated or not extended, or should we fail to receive new credit lines, the Company's liquidity would not be secured. On the basis of our

business development, the liquidity of AdLINK Internet Media AG can be regarded as secure at present and is sufficient to be able to meet all future payment obligations.

Other risks

Personnel

An important factor contributing to the successful operation of AdLINK Internet Media AG are the skills and market knowledge of its employees. There is strong competition for skilled and motivated specialists with specific background knowledge and customer contacts. There is no guarantee that AdLINK Internet Media AG will be able to recruit, integrate and keep skilled personnel in future. High staff turnover or the loss of key personnel could have an adverse impact on AdLINK Internet Media AG. We counter such risks by pursuing an active personnel development strategy.

Acquisitions

Part of our long-term growth strategy involves the possibility of acquiring companies in order to promote quick growth. This might relate to specific markets or niches of online marketing, in which we have no or little involvement at present. In this way, we might decide to supplement our organic growth by means acquisitions, should the opportunity present itself. If the acquired companies or company divisions do not fulfill our expectations or their integration prove more difficult or costly than planned, this might result in a deterioration of our net assets, financial situation and results of operations.

Qualitative and quantitative information pertaining to the overall level of risk

Due to the strong improvement in profitability, the overall risk situation has continued to stabilize. As a result of ongoing fierce competition on the online advertising market, the major risks for the Company's future net assets, financial situation and results of operations focus on the areas of competition, inventory, personnel and product development. The risk management culture we have introduced enables us to proactively counter such risks and limit them to a minimum. We judge the probability of such adverse developments as low in the short term and moderate in the medium term. There were no risks which directly jeopardized the continued existence of AdLINK Internet Media AG in the fiscal year 2006, neither from individual risks nor from the overall risk situation.

Annual inspection of the risk management system

In the course of their audit of the Company's annual financial statements, the auditors assess both the functionality and compliance of the risk management system installed by AdLINK Internet Media AG. The auditors confirmed that our risk management system complied with legal requirements in 2006.

Independence report

In compliance with Sec. 312 (1) AktG, the Management Board of AdLINK Internet Media AG presented the Supervisory Board with an independence report dealing with the company's possible dependence on its majority shareholder United Internet AG. It closes with the declaration that the company received adequate compensation (quid pro quo) for each legal transaction in accordance with the circumstances known at the time when such transactions were carried out, or the measure involved was executed or omitted, and that the company was not disadvantaged by such measures being executed or omitted.

Outlook and forecast

AdLINK aims to achieve above-average growth in flourishing markets

According to a JupiterResearch study, the European online advertising market grew by 28% to € 5 billion in 2006. The market research institute expects the total market to reach a volume of € 5.9 billion in 2007. By 2010, JupiterResearch expects online advertising in Europe to generate revenue of € 7.8 billion. The rapid spread of broadband internet connections and increasing use of flat rates means that the internet will be used more intensively in future, making it even more attractive for our customers – the advertisers. Broadband technology will also facilitate new advertising formats, for example, the increased use of video clips. Online advertising has established itself in the advertising mix of companies and will steadily increase its proportion of total advertising spending. We aim to benefit from this development.

With our strong brands – AdLINK, affilinet and Sedo – we believe we are well positioned on the market. The online market is booming and the conditions for online marketing continue to make strong progress. The strong international alignment of our networks guarantees a wide reach and the ability to cover all key markets. Our business segments are well established on their respective domestic and international markets and are capable of meeting all customer requirements.

We expect the market segments in which AdLINK Internet Media AG operates to achieve further strong growth in 2007. We aim to share in this growth, both in 2007 and the following years, and to develop faster than the market average.

Montabaur, March 4, 2007

The Management Board

Guy Challen, Stéphane Cordier, Marc Stilke
